HUNTINGTON STATION, NY 11746-2101
(631) 622-4833

Description:

This application is for a renewal of Title V permit. American Technical Ceramics Corporation provides component and interconnection substrate solution for RH microwave and Telecom industries. It designs, develops, manufactures and markets MLCC's. The facility operations include casting, mixing fume hood, batching room, furnace room, screening room with fume hood, kilns, cleaning room with fume hood, dicing room, rotary rooms, termination ink blending, electrode ink blending, quality control lab, chipstar, drying kilns, Polomar machines, nickel plating (lead/tin bath), gold plating, cyanide bath, lead/tin plating, chemical dispensing and waste storage, hand dip pots, degraser and ovens.
By acceptance of this permit, the permittee agrees that the permit is contingent upon strict compliance with the ECL, all applicable regulations, the General Conditions specified and any Special Conditions included as part of this permit.

Authorized Signature: _____________________________    Date: ___ / ___ / _____
Notification of Other State Permittee Obligations

Item A: Permittee Accepts Legal Responsibility and Agrees to Indemnification

The permittee expressly agrees to indemnify and hold harmless the Department of Environmental Conservation of the State of New York, its representatives, employees and agents (“DEC”) for all claims, suits, actions, and damages, to the extent attributable to the permittee’s acts or omissions in connection with the compliance permittee's undertaking of activities in connection with, or operation and maintenance of, the facility or facilities authorized by the permit whether in compliance or not in any compliance with the terms and conditions of the permit. This indemnification does not extend to any claims, suits, actions, or damages to the extent attributable to DEC's own negligent or intentional acts or omissions, or to any claims, suits, or actions naming the DEC and arising under article 78 of the New York Civil Practice Laws and Rules or any citizen suit or civil rights provision under federal or state laws.

Item B: Permittee's Contractors to Comply with Permit

The permittee is responsible for informing its independent contractors, employees, agents and assigns of their responsibility to comply with this permit, including all special conditions while acting as the permittee's agent with respect to the permitted activities, and such persons shall be subject to the same sanctions for violations of the Environmental Conservation Law as those prescribed for the permittee.

Item C: Permittee Responsible for Obtaining Other Required Permits

The permittee is responsible for obtaining any other permits, approvals, lands, easements and rights-of-way that may be required to carry out the activities that are authorized by this permit.

Item D: No Right to Trespass or Interfere with Riparian Rights

This permit does not convey to the permittee any right to trespass upon the lands or interfere with the riparian rights of others in order to perform the permitted work nor does it authorize the impairment of any rights, title, or interest in real or personal property held or vested in a person not a party to the permit.

DEC GENERAL CONDITIONS

***** General Provisions *****
For the purpose of your Title V permit, the following section contains state-only enforceable terms and conditions.

GENERAL CONDITIONS - Apply to ALL Authorized Permits.

Condition 1: Facility Inspection by the Department
Applicable State Requirement: ECL 19-0305

Item 1.1:
The permitted site or facility, including relevant records, is subject to inspection at reasonable hours and intervals by an authorized representative of the Department of Environmental Conservation (the Department) to determine whether the permittee is complying with this permit and the ECL. Such representative may order the work suspended pursuant to ECL 71-0301 and SAPA 401(3).

Item 1.2:
The permittee shall provide a person to accompany the Department's representative during an inspection to the permit area when requested by the Department.

Item 1.3:
A copy of this permit, including all referenced maps, drawings and special conditions, must be available for inspection by the Department at all times at the project site or facility. Failure to produce a copy of the permit upon request by a Department representative is a violation of this permit.

Condition 2: Relationship of this Permit to Other Department Orders and Determinations
Applicable State Requirement: ECL 3-0301 (2) (m)

Item 2.1:
Unless expressly provided for by the Department, issuance of this permit does not modify, supersede or rescind any order or determination previously issued by the Department or any of the terms, conditions or requirements contained in such order or determination.

Condition 3: Applications for permit renewals, modifications and transfers
Applicable State Requirement: 6 NYCRR 621.11

Item 3.1:
The permittee must submit a renewal application at least 180 days before expiration of permits for both Title V and State Facility Permits.

Item 3.3:
Permits are transferrable with the approval of the department unless specifically prohibited by the statute, regulation or another permit condition. Applications for permit transfer should be submitted prior to actual transfer of ownership.

Condition 4: Permit modifications, suspensions or revocations by the Department
Applicable State Requirement: 6 NYCRR 621.13

Item 4.1:
The Department reserves the right to exercise all available authority to modify, suspend, or revoke this permit in accordance with 6NYCRR Part 621. The grounds for modification, suspension or revocation include:

a) materially false or inaccurate statements in the permit application or supporting papers;
b) failure by the permittee to comply with any terms or conditions of the permit;
c) exceeding the scope of the project as described in the permit application;
d) newly discovered material information or a material change in environmental conditions, relevant technology or applicable law or regulations since the issuance of the existing permit;
e) noncompliance with previously issued permit conditions, orders of the commissioner, any provisions of the Environmental Conservation Law or regulations of the Department related to the permitted activity.

**** Facility Level ****

Condition 5: Submission of application for permit modification or renewal - REGION 1

HEADQUARTERS
Applicable State Requirement: 6 NYCRR 621.6 (a)

Item 5.1:
Applications for permit modification or renewal are to be submitted to:
NYSDEC Regional Permit Administrator
Region 1 Headquarters
Division of Environmental Permits
Stony Brook University
50 Circle Road
Stony Brook, NY 11790-3409
(631) 444-0365

NOTIFICATION OF GENERAL PERMITTEE OBLIGATIONS
The items listed below are not subject to the annual compliance certification requirements under Title V. Permittees may also have other obligations under regulations of general applicability.

Item A: Public Access to Recordkeeping for Title V Facilities - 6 NYCRR 201-1.10 (b)
The Department will make available to the public any permit application, compliance plan, permit, and monitoring and compliance certification report pursuant to Section 503(e) of the Act, except for information entitled to confidential treatment pursuant to 6 NYCRR Part 616 - Public Access to records and Section 114(c) of the Act.

Item B: Timely Application for the Renewal of Title V Permits - 6 NYCRR 201-6.2 (a) (4)
Owners and/or operators of facilities having an issued Title V permit shall submit a complete application at least 180 days, but not more than eighteen months, prior to the date of permit expiration for permit renewal purposes.

Item C: Certification by a Responsible Official - 6 NYCRR 201-6.2 (d) (12)
Any application, form, report or compliance certification required to be submitted pursuant to the federally enforceable portions of this permit shall contain a certification of truth, accuracy and completeness by a responsible official. This certification shall state that based on information and belief formed after reasonable inquiry, the statements and information in the document are true, accurate, and complete.

Item D: Requirement to Comply With All Conditions - 6 NYCRR 201-6.4 (a) (2)
The permittee must comply with all conditions of the Title V facility permit. Any permit non-compliance constitutes a violation of the Act and is grounds for enforcement action; for permit termination, revocation and reissuance, or modification; or for denial of a permit renewal application.

Item E: Permit Revocation, Modification, Reopening, Reissuance or Termination, and Associated Information Submission Requirements - 6 NYCRR 201-6.4 (a) (3)
This permit may be modified, revoked, reopened and reissued, or terminated for cause. The filing of a request by the permittee for a permit modification, revocation and
reissuance, or termination, or of a notification of planned changes or anticipated noncompliance does not stay any permit condition.

Item F: Cessation or Reduction of Permitted Activity Not a Defense - 6 NYCRR 201-6.4 (a) (5)
It shall not be a defense for a permittee in an enforcement action to claim that a cessation or reduction in the permitted activity would have been necessary in order to maintain compliance with the conditions of this permit.

Item G: Property Rights - 6 NYCRR 201-6.4 (a) (6)
This permit does not convey any property rights of any sort or any exclusive privilege.

Item H: Severability - 6 NYCRR 201-6.4 (a) (9)
If any provisions, parts or conditions of this permit are found to be invalid or are the subject of a challenge, the remainder of this permit shall continue to be valid.

Item I: Permit Shield - 6 NYCRR 201-6.4 (g)
All permittees granted a Title V facility permit shall be covered under the protection of a permit shield, except as provided under 6 NYCRR Subpart 201-6. Compliance with the conditions of the permit shall be deemed compliance with any applicable requirements as of the date of permit issuance, provided that such applicable requirements are included and are specifically identified in the permit, or the Department, in acting on the permit application or revision, determines in writing that other requirements specifically identified are not applicable to the major stationary source, and the permit includes the determination or a concise summary thereof. Nothing herein shall preclude the Department from revising or revoking the permit pursuant to 6 NYCRR Part 621 or from exercising its summary abatement authority. Nothing in this permit shall alter or affect the following:

i. The ability of the Department to seek to bring suit on behalf of the State of New York, or the Administrator to seek to bring suit on behalf of the United States, to immediately restrain any person causing or contributing to pollution presenting an imminent and substantial endangerment to public health, welfare or the environment to stop the emission of air pollutants causing or contributing to such pollution;

ii. The liability of a permittee of the Title V
facility for any violation of applicable requirements prior to or at the time of permit issuance;

iii. The applicable requirements of Title IV of the Act;

iv. The ability of the Department or the Administrator to obtain information from the permittee concerning the ability to enter, inspect and monitor the facility.

Item J: Reopening for Cause - 6 NYCRR 201-6.4 (i)

This Title V permit shall be reopened and revised under any of the following circumstances:

i. If additional applicable requirements under the Act become applicable where this permit's remaining term is three or more years, a reopening shall be completed not later than 18 months after promulgation of the applicable requirement. No such reopening is required if the effective date of the requirement is later than the date on which this permit is due to expire, unless the original permit or any of its terms and conditions has been extended by the Department pursuant to the provisions of Part 201-6.7 and Part 621.

ii. The Department or the Administrator determines that the permit contains a material mistake or that inaccurate statements were made in establishing the emissions standards or other terms or conditions of the permit.

iii. The Department or the Administrator determines that the Title V permit must be revised or reopened to assure compliance with applicable requirements.

iv. If the permitted facility is an "affected source" subject to the requirements of Title IV of the Act, and additional requirements (including excess emissions requirements) become applicable. Upon approval by the Administrator, excess emissions offset plans shall be deemed to be incorporated into the permit.

Proceedings to reopen and issue Title V facility permits shall follow the same procedures as apply to initial permit issuance but shall affect only those parts of the permit for which cause to reopen exists.

Reopenings shall not be initiated before a notice of such intent is provided to the facility by the Department at least thirty days in advance of the date that the permit is to be reopened, except that the Department may provide
a shorter time period in the case of an emergency.

**Item K: Permit Exclusion - ECL 19-0305**
The issuance of this permit by the Department and the receipt thereof by the Applicant does not and shall not be construed as barring, diminishing, adjudicating or in any way affecting any legal, administrative or equitable rights or claims, actions, suits, causes of action or demands whatsoever that the Department may have against the Applicant for violations based on facts and circumstances alleged to have occurred or existed prior to the effective date of this permit, including, but not limited to, any enforcement action authorized pursuant to the provisions of applicable federal law, the Environmental Conservation Law of the State of New York (ECL) and Chapter III of the Official Compilation of the Codes, Rules and Regulations of the State of New York (NYCRR). The issuance of this permit also shall not in any way affect pending or future enforcement actions under the Clean Air Act brought by the United States or any person.

**Item L: Federally Enforceable Requirements - 40 CFR 70.6 (b)**
All terms and conditions in this permit required by the Act or any applicable requirement, including any provisions designed to limit a facility's potential to emit, are enforceable by the Administrator and citizens under the Act. The Department has, in this permit, specifically designated any terms and conditions that are not required under the Act or under any of its applicable requirements as being enforceable under only state regulations.

**MANDATORY FEDERALLY ENFORCEABLE PERMIT CONDITIONS SUBJECT TO ANNUAL CERTIFICATIONS AT ALL TIMES**

The following federally enforceable permit conditions are mandatory for all Title V permits and are subject to annual compliance certification requirements at all times.

**Condition 1:** Acceptable Ambient Air Quality
Effective between the dates of 06/16/2016 and 06/15/2021

Applicable Federal Requirement: 6 NYCRR 200.6

**Item 1.1:** Notwithstanding the provisions of 6 NYCRR Chapter III, Subchapter A, no person shall allow or permit any air contamination source to emit air contaminants in quantities which alone or in combination with emissions from other air contamination sources would contravene any applicable ambient air quality standard and/or cause air pollution. In such cases where contravention occurs or may occur, the Commissioner shall specify the degree and/or method of
emission control required.

**Condition 2:**  
Fees  
Effective between the dates of 06/16/2016 and 06/15/2021  

*Applicable Federal Requirement:* 6 NYCRR 201-6.4 (a) (7)

**Condition 3:**  
Recordkeeping and Reporting of Compliance Monitoring  
Effective between the dates of 06/16/2016 and 06/15/2021  

*Applicable Federal Requirement:* 6 NYCRR 201-6.4 (c)

**Item 2.1:**  
The owner and/or operator of a stationary source shall pay fees to the Department consistent with the fee schedule authorized by ECL 72-0303.

**Condition 3:**  
Recordkeeping and Reporting of Compliance Monitoring  
Effective between the dates of 06/16/2016 and 06/15/2021  

*Applicable Federal Requirement:* 6 NYCRR 201-6.4 (c)

**Item 3.1:**  
The following information must be included in any required compliance monitoring records and reports:

(i) The date, place, and time of sampling or measurements;

(ii) The date(s) analyses were performed;

(iii) The company or entity that performed the analyses;

(iv) The analytical techniques or methods used including quality assurance and quality control procedures if required;

(v) The results of such analyses including quality assurance data where required; and

(vi) The operating conditions as existing at the time of sampling or measurement.

Any deviation from permit requirements must be clearly identified in all records and reports. Reports must be certified by a responsible official, consistent with Section 201-6.2 of Part 201.

**Condition 4:**  
Records of Monitoring, Sampling, and Measurement  
Effective between the dates of 06/16/2016 and 06/15/2021  

*Applicable Federal Requirement:* 6 NYCRR 201-6.4 (c) (2)

**Item 4.1:**  
Compliance monitoring and recordkeeping shall be conducted according to the terms and conditions contained in this permit and shall follow all quality assurance requirements found in applicable regulations. Records of all monitoring data and support information must be retained for a period of at least 5 years from the date of the monitoring, sampling, measurement, report, or application. Support information includes all calibration and maintenance records and all original strip-chart recordings for continuous monitoring instrumentation, and copies of all reports required by the permit.
Condition 5: Compliance Certification
Effective between the dates of 06/16/2016 and 06/15/2021

Applicable Federal Requirement: 6 NYCRR 201-6.4 (c) (3) (ii)

Item 5.1:
The Compliance Certification activity will be performed for the Facility.

Item 5.2:
Compliance Certification shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES
Monitoring Description:
To meet the requirements of this facility permit with respect to reporting, the permittee must:

Submit reports of any required monitoring at a minimum frequency of every 6 months, based on a calendar year reporting schedule. These reports shall be submitted to the Department within 30 days after the end of a reporting period. All instances of deviations from permit requirements must be clearly identified in such reports. All required reports must be certified by the responsible official for this facility.

Notify the Department and report permit deviations and incidences of noncompliance stating the probable cause of such deviations, and any corrective actions or preventive measures taken. Where the underlying applicable requirement contains a definition of prompt or otherwise specifies a time frame for reporting deviations, that definition or time frame shall govern. Where the underlying applicable requirement fails to address the time frame for reporting deviations, reports of deviations shall be submitted to the permitting authority based on the following schedule:

(1) For emissions of a hazardous air pollutant (as identified in an applicable regulation) that continue for more than an hour in excess of permit requirements, the report must be made within 24 hours of the occurrence.

(2) For emissions of any regulated air pollutant, excluding those listed in paragraph (1) of this section, that continue for more than two hours in excess of permit requirements, the report must be made within 48 hours.

(3) For all other deviations from permit requirements, the report shall be contained in the 6 month monitoring
report required above.

(4) This permit may contain a more stringent reporting requirement than required by paragraphs (1), (2) or (3) above. If more stringent reporting requirements have been placed in this permit or exist in applicable requirements that apply to this facility, the more stringent reporting requirement shall apply.

If above paragraphs (1) or (2) are met, the source must notify the permitting authority by telephone during normal business hours at the Regional Office of jurisdiction for this permit, attention Regional Air Pollution Control Engineer (RAPCE) according to the timetable listed in paragraphs (1) and (2) of this section. For deviations and incidences that must be reported outside of normal business hours, on weekends, or holidays, the DEC Spill Hotline phone number at 1-800-457-7362 shall be used. A written notice, certified by a responsible official consistent with 6 NYCRR Part 201-6.2(d)(12), must be submitted within 10 working days of an occurrence for deviations reported under (1) and (2). All deviations reported under paragraphs (1) and (2) of this section must also be identified in the 6 month monitoring report required above.

The provisions of 6 NYCRR 201-1.4 shall apply if the permittee seeks to have a violation excused unless otherwise limited by regulation. In order to have a violation of a federal regulation (such as a new source performance standard or national emissions standard for hazardous air pollutants) excused, the specific federal regulation must provide for an affirmative defense during start-up, shutdowns, malfunctions or upsets. Notwithstanding any recordkeeping and reporting requirements in 6 NYCRR 201-1.4, reports of any deviations shall not be on a less frequent basis than the reporting periods described in paragraphs (1) and (4) above.

In the case of any condition contained in this permit with a reporting requirement of "Upon request by regulatory agency" the permittee shall include in the semiannual report, a statement for each such condition that the monitoring or recordkeeping was performed as required or requested and a listing of all instances of deviations from these requirements.

In the case of any emission testing performed during the previous six month reporting period, either due to a request by the Department, EPA, or a regulatory requirement, the permittee shall include in the semiannual report a summary of the testing results and shall indicate
whether or not the Department or EPA has approved the results.

All semiannual reports may be submitted electronically or physically. Electronic reports shall be submitted using the Department’s Air Compliance and Emissions Electronic-Reporting system (ACE). If the facility owner or operator elects to send physical copies instead, two copies shall be sent to the Department (one copy to the regional air pollution control engineer (RAPCE) in the regional office and one copy to the Bureau of Quality Assurance (BQA) in the DEC central office) and one copy shall be sent to the Administrator (or his or her representative). Mailing addresses for the above referenced persons are contained in the monitoring condition for 6 NYCRR Part 201-6.4(e), contained elsewhere in this permit.

Reporting Requirements: SEMI-ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
The initial report is due 7/30/2016.
Subsequent reports are due every 6 calendar month(s).

Condition 6: Compliance Certification
Effective between the dates of 06/16/2016 and 06/15/2021

Applicable Federal Requirement: 6 NYCRR 201-6.4 (e)

Item 6.1:
The Compliance Certification activity will be performed for the Facility.

Item 6.2:
Compliance Certification shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES
Monitoring Description:
Requirements for compliance certifications with terms and conditions contained in this facility permit include the following:

i. Compliance certifications shall contain:
- the identification of each term or condition of the permit that is the basis of the certification;
- the compliance status;
- whether compliance was continuous or intermittent;
- the method(s) used for determining the compliance status of the facility, currently and over the reporting period consistent with the monitoring and related recordkeeping and reporting requirements of this permit;
- such other facts as the Department may require to determine the compliance status of the facility as specified in any special permit terms or conditions;
and
- such additional requirements as may be specified elsewhere in this permit related to compliance certification.

ii. The responsible official must include in the annual certification report all terms and conditions contained in this permit which are identified as being subject to certification, including emission limitations, standards, or work practices. That is, the provisions labeled herein as "Compliance Certification" are not the only provisions of this permit for which an annual certification is required.

iii. Compliance certifications shall be submitted annually. Certification reports are due 30 days after the anniversary date of four consecutive calendar quarters. The first report is due 30 days after the calendar quarter that occurs just prior to the permit anniversary date, unless another quarter has been acceptable by the Department.

iv. All annual compliance certifications may be submitted electronically or physically. Electronic reports shall be submitted using the Department’s Air Compliance and Emissions Electronic-Reporting system (ACE). If the facility owner or operator elects to send physical copies instead, two copies shall be sent to the Department (one copy to the regional air pollution control engineer (RAPCE) in the regional office and one copy to the Bureau of Quality Assurance (BQA) in the DEC central office) and one copy shall be sent to the Administrator (or his or her representative). The mailing addresses for the above referenced persons are:

Chief – Stationary Source Compliance Section
USEPA Region 2
Air Compliance Branch
290 Broadway
New York, NY 10007-1866

The address for the RAPCE is as follows:

Regional Air Pollution Control Engineer
NYSDEC- Region 1 Headquarters
Stony Brook University
50 Circle Road
Stony Brook, NY 11790-3409

The address for the BQA is as follows:

NYSDEC
Monitoring Frequency: ANNUALLY  
Reporting Requirements: ANNUALLY (CALENDAR)  
Reports due 30 days after the reporting period.  
The initial report is due 1/30/2017.  
Subsequent reports are due on the same day each year

**Condition 7:** Compliance Certification  
**Effective between the dates of 06/16/2016 and 06/15/2021**  

**Applicable Federal Requirement:** 6 NYCRR 202-2.1  

**Item 7.1:**  
The Compliance Certification activity will be performed for the Facility.  

**Item 7.2:**  
Compliance Certification shall include the following monitoring:

- **Monitoring Type:** RECORD KEEPING/MAINTENANCE PROCEDURES  
- **Monitoring Description:**  
  Emission statements shall be submitted on or before April 15th each year for emissions of the previous calendar year. Statements are to be mailed to: New York State Department of Environmental Conservation, Division of Air Resources, Bureau of Air Quality Planning, 625 Broadway, Albany NY 12233-3251

Monitoring Frequency: ANNUALLY  
Reporting Requirements: ANNUALLY (CALENDAR)  
Reports due by April 15th for previous calendar year

**Condition 8:** Recordkeeping requirements  
**Effective between the dates of 06/16/2016 and 06/15/2021**  

**Applicable Federal Requirement:** 6 NYCRR 202-2.5  

**Item 8.1:**  
(a) The following records shall be maintained for at least five years:

(1) a copy of each emission statement submitted to the department; and  
(2) records indicating how the information submitted in the emission statement was determined, including any calculations, data, measurements, and estimates used.  

(b) These records shall be made available at the facility to the representatives of the department upon request during normal business hours.

**Condition 9:** Open Fires - Prohibitions  
**Effective between the dates of 06/16/2016 and 06/15/2021**
Applicable Federal Requirement: 6 NYCRR 215.2

Item 9.1:
Except as allowed by Title 6 NYCRR Section 215.3, no person shall burn, cause, suffer, allow or permit the burning of any materials in an open fire.

Item 9.2
Per Section 215.3, burning in an open fire, provided it is not contrary to other law or regulation, will be allowed as follows:
(a) On-site burning in any town with a total population less than 20,000 of downed limbs and branches (including branches with attached leaves or needles) less than six inches in diameter and eight feet in length between May 15th and the following March 15th. For the purposes of this subdivision, the total population of a town shall include the population of any village or portion thereof located within the town. However, this subdivision shall not be construed to allow burning within any village.
(b) Barbecue grills, maple sugar arches and similar outdoor cooking devices when actually used for cooking or processing food.
(c) Small fires used for cooking and camp fires provided that only charcoal or untreated wood is used as fuel and the fire is not left unattended until extinguished.
(d) On-site burning of agricultural wastes as part of a valid agricultural operation on contiguous agricultural lands larger than five acres actively devoted to agricultural or horticultural use, provided such waste is actually grown or generated on those lands and such waste is capable of being fully burned within a 24-hour period.
(e) The use of liquid petroleum fueled smudge pots to prevent frost damage to crops.
(f) Ceremonial or celebratory bonfires where not otherwise prohibited by law, provided that only untreated wood or other agricultural products are used as fuel and the fire is not left unattended until extinguished.
(g) Small fires that are used to dispose of a flag or religious item, and small fires or other smoke producing process where not otherwise prohibited by law that are used in connection with a religious ceremony.
(h) Burning on an emergency basis of explosive or other dangerous or contraband materials by police or other public safety organization.
(i) Prescribed burns performed according to Part 194 of this Title.
(j) Fire training, including firefighting, fire rescue, and fire/arson investigation training, performed under applicable rules and guidelines of the New York State Department of State's Office of Fire Prevention and Control. For fire training performed on acquired structures, the structures must be emptied and stripped of any material that is toxic, hazardous or likely to emit toxic smoke (such as asbestos, asphalt shingles and vinyl siding or other vinyl products) prior to burning and must be at least 300 feet from other occupied structures. No more than one structure per lot or within a 300 foot radius (whichever is bigger) may be burned in a training exercise.
(k) Individual open fires as approved by the Director of the Division of Air Resources as may be required in response to an outbreak of a plant or animal disease upon request by the commissioner of the Department of Agriculture and Markets, or for the destruction of invasive plant and insect species.
(l) Individual open fires that are otherwise authorized under the environmental conservation law, or by rule or regulation of the Department.

MANDATORY FEDERALLY ENFORCEABLE PERMIT CONDITIONS
SUBJECT TO ANNUAL CERTIFICATIONS ONLY IF APPLICABLE

The following federally enforceable permit conditions are mandatory for all Title V permits and are subject to annual compliance certification requirements only if effectuated during the reporting period. [NOTE: The corresponding annual compliance certification for those conditions not effectuated during the reporting period shall be specified as "not applicable".]

Condition 10: Maintenance of Equipment
Effective between the dates of 06/16/2016 and 06/15/2021

Applicable Federal Requirement: 6 NYCRR 200.7

Item 10.1:
Any person who owns or operates an air contamination source which is equipped with an emission control device shall operate such device and keep it in a satisfactory state of maintenance and repair in accordance with ordinary and necessary practices, standards and procedures, inclusive of manufacturer's specifications, required to operate such device effectively.

Condition 11: Recycling and Salvage
Effective between the dates of 06/16/2016 and 06/15/2021

Applicable Federal Requirement: 6 NYCRR 201-1.7

Item 11.1:
Where practical, the owner or operator of an air contamination source shall recycle or salvage air contaminants collected in an air cleaning device according to the requirements of the ECL.

Condition 12: Prohibition of Reintroduction of Collected Contaminants to the air
Effective between the dates of 06/16/2016 and 06/15/2021

Applicable Federal Requirement: 6 NYCRR 201-1.8

Item 12.1:
No person shall unnecessarily remove, handle or cause to be handled, collected air contaminants from an air cleaning device for recycling, salvage or disposal in a manner that would reintroduce them to the outdoor atmosphere.

Condition 13: Exempt Sources - Proof of Eligibility
Effective between the dates of 06/16/2016 and 06/15/2021

Applicable Federal Requirement: 6 NYCRR 201-3.2 (a)

Item 13.1:
The owner or operator of an emission source or activity that is listed as being exempt may be required to certify that it is operated within the specific criteria described in this Subpart. The owner or operator of any such emission source or activity must maintain all records necessary for demonstrating compliance with this Subpart on-site for a period of five years, and make them available to representatives of the department upon request.
Condition 14:  Trivial Sources - Proof of Eligibility
Effective between the dates of 06/16/2016 and 06/15/2021

Applicable Federal Requirement: 6 NYCRR 201-3.3 (a)

Item 14.1:
The owner or operator of an emission source or activity that is listed as being trivial in this Section may be required to certify that it is operated within the specific criteria described in this Subpart. The owner or operator of any such emission source or activity must maintain all required records on-site for a period of five years and make them available to representatives of the department upon request.

Condition 15:  Requirement to Provide Information
Effective between the dates of 06/16/2016 and 06/15/2021

Applicable Federal Requirement: 6 NYCRR 201-6.4 (a) (4)

Item 15.1:
The owner and/or operator shall furnish to the department, within a reasonable time, any information that the department may request in writing to determine whether cause exists for modifying, revoking and reissuing, or terminating the permit or to determine compliance with the permit. Upon request, the permittee shall also furnish to the department copies of records required to be kept by the permit or, for information claimed to be confidential, the permittee may furnish such records directly to the administrator along with a claim of confidentiality, if the administrator initiated the request for information or otherwise has need of it.

Condition 16:  Right to Inspect
Effective between the dates of 06/16/2016 and 06/15/2021

Applicable Federal Requirement: 6 NYCRR 201-6.4 (a) (8)

Item 16.1:
The department or an authorized representative shall be allowed upon presentation of credentials and other documents as may be required by law to:

(i) enter upon the permittee’s premises where a facility subject to the permitting requirements of this Subpart is located or emissions-related activity is conducted, or where records must be kept under the conditions of the permit;

(ii) have access to and copy, at reasonable times, any records that must be kept under the conditions of the permit;

(iii) inspect at reasonable times any emission sources, equipment (including monitoring and air pollution control equipment), practices, and operations regulated or required under the permit; and

(iv) sample or monitor at reasonable times substances or parameters for the purpose of assuring compliance with the permit or applicable requirements.
Condition 17: Off Permit Changes
Effective between the dates of 06/16/2016 and 06/15/2021

Applicable Federal Requirement: 6 NYCRR 201-6.4 (f) (6)

Item 17.1:
No permit revision will be required for operating changes that contravene an express permit term, provided that such changes would not violate applicable requirements as defined under this Part or contravene federally enforceable monitoring (including test methods), recordkeeping, reporting, or compliance certification permit terms and conditions. Such changes may be made without requiring a permit revision, if the changes are not modifications under any provision of title I of the act and the changes do not exceed the emissions allowable under the permit (whether expressed therein as a rate of emissions or in terms of total emissions) provided that the facility provides the administrator and the department with written notification as required below in advance of the proposed changes within a minimum of seven days. The facility owner or operator, and the department shall attach each such notice to their copy of the relevant permit.

(i) For each such change, the written notification required above shall include a brief description of the change within the permitted facility, the date on which the change will occur, any change in emissions, and any permit term or condition that is no longer applicable as a result of the change.

(ii) The permit shield described in section 6 NYCRR 201-6.4 shall not apply to any change made pursuant to this paragraph.

Condition 18: Required Emissions Tests
Effective between the dates of 06/16/2016 and 06/15/2021

Applicable Federal Requirement: 6 NYCRR 202-1.1

Item 18.1:
For the purpose of ascertaining compliance or non-compliance with any air pollution control code, rule or regulation, the commissioner may require the person who owns such air contamination source to submit an acceptable report of measured emissions within a stated time.

Condition 19: Accidental release provisions.
Effective between the dates of 06/16/2016 and 06/15/2021

Applicable Federal Requirement: 40 CFR Part 68

Item 19.1:
If a chemical is listed in Tables 1, 2, 3 or 4 of 40 CFR §68.130 is present in a process in quantities greater than the threshold quantity listed in Tables 1, 2, 3 or 4, the following requirements will apply:

a) The owner or operator shall comply with the provisions of 40 CFR Part 68 and;

b) The owner or operator shall submit at the time of permit issuance (if not previously
submitted) one of the following, if such quantities are present:

1) A compliance schedule for meeting the requirements of 40 CFR Part 68 by the date provided in 40 CFR §68.10(a) or,

2) A certification statement that the source is in compliance with all requirements of 40 CFR Part 68, including the registration and submission of the Risk Management Plan. Information should be submitted to:

Risk Management Plan Reporting Center  
C/O CSC  
8400 Corporate Dr  
Carrollton, Md.  20785

**Condition 20: Recycling and Emissions Reduction**  
**Effective between the dates of 06/16/2016 and 06/15/2021**  
**Applicable Federal Requirement:** 40CFR 82, Subpart F

**Item 20.1:**  
The permittee shall comply with all applicable provisions of 40 CFR Part 82.

The following conditions are subject to annual compliance certification requirements for Title V permits only.

**Condition 21: Emission Unit Definition**  
**Effective between the dates of 06/16/2016 and 06/15/2021**  
**Applicable Federal Requirement:** 6 NYCRR Subpart 201-6

**Item 21.1:**  
The facility is authorized to perform regulated processes under this permit for:  
Emission Unit: 0-10001  
Emission Unit Description: Casting  
Building(s): 1

**Item 21.2:**  
The facility is authorized to perform regulated processes under this permit for:  
Emission Unit: 0-10002  
Emission Unit Description: Mixing Fume Hood.  
Building(s): 1

**Item 21.3:**  
The facility is authorized to perform regulated processes under this permit for:
Item 21.4:
The facility is authorized to perform regulated processes under this permit for:
Emission Unit: 0-10004
Emission Unit Description: Furnace Room/BBO

Building(s): 1

Item 21.5:
The facility is authorized to perform regulated processes under this permit for:
Emission Unit: 1-00200
Emission Unit Description: Screening room with fume hood

Building(s): 10

Item 21.6:
The facility is authorized to perform regulated processes under this permit for:
Emission Unit: 1-00202
Emission Unit Description: Kilns

Building(s): 10

Item 21.7:
The facility is authorized to perform regulated processes under this permit for:
Emission Unit: 1-00203
Emission Unit Description: Screen cleaning room: vents for solvent use, cleaning room with fume hood, low point room

Building(s): 10

Item 21.8:
The facility is authorized to perform regulated processes under this permit for:
Emission Unit: 1-00204
Emission Unit Description: Dicing room

Building(s): 10

Item 21.9:
The facility is authorized to perform regulated processes under this permit for:
Emission Unit: 1-00205
Emission Unit Description: Rotary room 2
Item 21.10:
The facility is authorized to perform regulated processes under this permit for:
   Emission Unit: 1-00206
   Emission Unit Description:
   Rotary room 1 - Ceramic blocks are cut and ink is applied to some. Blank sheets are stacked to make a block; screens are cleaned with solvent soaked rags which contain 50% toluene and 50% isopropanol.

Building(s): 10

Item 21.11:
The facility is authorized to perform regulated processes under this permit for:
   Emission Unit: 1-30002
   Emission Unit Description:
   Termination ink blending - Formation of silvering inks and cleaning with 50% Axarel 2200 / 50% isopropanol solution.

Building(s): 15

Item 21.12:
The facility is authorized to perform regulated processes under this permit for:
   Emission Unit: 1-30200
   Emission Unit Description:
   Electrode ink blending - Preparation of palladium metal inks & cleaning of vessels/utensils using a solution of 50% isopropanol and 50% toluene.

Building(s): 15

Item 21.13:
The facility is authorized to perform regulated processes under this permit for:
   Emission Unit: 1-50001
   Emission Unit Description:
   Quality control lab

Building(s): 15

Item 21.14:
The facility is authorized to perform regulated processes under this permit for:
   Emission Unit: 1-50002
   Emission Unit Description:
   Chipstar

Building(s): 15

Item 21.15:
The facility is authorized to perform regulated processes under this permit for:
Emission Unit: 1-50003
Emission Unit Description: Drying kilns
Building(s): 15

Item 21.16:
The facility is authorized to perform regulated processes under this permit for:
Emission Unit: 1-50004
Emission Unit Description: Palomar machines - ink application and cleaning
Building(s): 15

Item 21.17:
The facility is authorized to perform regulated processes under this permit for:
Emission Unit: 1-50006
Emission Unit Description: Nickel plating lead/tin bath
Building(s): 15

Item 21.18:
The facility is authorized to perform regulated processes under this permit for:
Emission Unit: 1-50010
Emission Unit Description: Parts cleaning and oven drying
Building(s): 15

Item 21.19:
The facility is authorized to perform regulated processes under this permit for:
Emission Unit: 1-50012
Emission Unit Description: Lead/tin plating
Building(s): 15

Item 21.20:
The facility is authorized to perform regulated processes under this permit for:
Emission Unit: 1-50013
Emission Unit Description: Assembly reflow kilns
Building(s): 15

Item 21.21:
The facility is authorized to perform regulated processes under this permit for:
Emission Unit: 1-50014
Emission Unit Description: Chemical dispensing and waste storage
Building(s): 15

Item 21.22:
The facility is authorized to perform regulated processes under this permit for:
  Emission Unit: 1-50023
  Emission Unit Description:
  Branson 950R ultrasonic vapor degreaser which uses Lenium ES solvent. This replaced the previous degreaser which used 1,1,1 trichloroethane (TCE). The unit also contains fume hoods, hand dip pots and ovens.

Building(s): 15

Item 21.23:
The facility is authorized to perform regulated processes under this permit for:
  Emission Unit: 1-50024
  Emission Unit Description:
  Abrading room

Building(s): 15

Item 21.24:
The facility is authorized to perform regulated processes under this permit for:
  Emission Unit: 1-50027
  Emission Unit Description:
  QA lab hood, solder station, IPA and flux

Building(s): 15

Item 21.25:
The facility is authorized to perform regulated processes under this permit for:
  Emission Unit: 1-50029
  Emission Unit Description:
  Fume hood

Building(s): 15

Item 21.26:
The facility is authorized to perform regulated processes under this permit for:
  Emission Unit: 1-50030
  Emission Unit Description:
  Belt cleaning and chip wash

Building(s): 15

Item 21.27:
The facility is authorized to perform regulated processes under this permit for:
  Emission Unit: 1-50031
  Emission Unit Description:
  SBE plating, parts cleaning and oven drying - SBE automatic nickel/tin plating system; parts cleaning and oven drying.
Item 21.28:
The facility is authorized to perform regulated processes under this permit for:
  Emission Unit: 1-50032
  Emission Unit Description: 
  Mold making area and Humiseal

Condition 22:        Progress Reports Due Semiannually
Effective between the dates of 06/16/2016 and 06/15/2021

Applicable Federal Requirement:6 NYCRR 201-6.4 (d) (4)

Item 22.1:
Progress reports consistent with an applicable schedule of compliance are to be submitted at 
least semiannually, or at a more frequent period if specified in the applicable requirement or by 
the department. Such progress reports shall contain the following:

(i) dates for achieving the activities, milestones, or compliance required in the schedule of 
compliance, and dates when such activities, milestones or compliance were achieved; and

(ii) an explanation of why any dates in the schedule of compliance were not or will not be met, 
and any preventive or corrective measures adopted.

Condition 23:        Facility Permissible Emissions
Effective between the dates of 06/16/2016 and 06/15/2021

Applicable Federal Requirement:6 NYCRR Subpart 201-7

Item 23.1:
The sum of emissions from the emission units specified in this permit shall not equal or exceed 
the following 
Potential To Emit (PTE) rate for each regulated contaminant:

  CAS No: 0NY998-00-0  PTE:  48,000  pounds per year
  Name:  VOC
Condition 24:  Capping Monitoring Condition
Effective between the dates of 06/16/2016 and 06/15/2021

Applicable Federal Requirement: 6 NYCRR Subpart 201-7

Item 24.1:
Under the authority of 6 NYCRR Part 201-7, this condition contains an emission cap for the purpose of limiting emissions from the facility, emission unit or process to avoid being subject to the following applicable requirement(s) that the facility, emission unit or process would otherwise be subject to:

6 NYCRR 212-3.1 (a) (1)

Item 24.2:
Operation of this facility shall take place in accordance with the approved criteria, emission limits, terms, conditions and standards in this permit.

Item 24.3:
The owner or operator of the permitted facility must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility regulated by this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations or law.

Item 24.4:
On an annual basis, unless otherwise specified below, beginning one year after the granting of an emissions cap, the responsible official shall provide a certification to the Department that the facility has operated all emission units within the limits imposed by the emission cap. This certification shall include a brief summary of the emissions subject to the cap for that time period and a comparison to the threshold levels that would require compliance with an applicable requirement.

Item 24.5:
The emission of pollutants that exceed the applicability thresholds for an applicable requirement, for which the facility has obtained an emissions cap, constitutes a violation of Part 201 and of the Act.

Item 24.6:
The Compliance Certification activity will be performed for the Facility.

Regulated Contaminant(s):
CAS No: 0NY998-00-0  VOC

Item 24.7:
Compliance Certification shall include the following monitoring:

Capping: Yes
Monitoring Type: MONITORING OF PROCESS OR CONTROL
DEVICE PARAMETERS AS SURROGATE

Monitoring Description:
Facility owner shall ensure that cumulative emissions of Volatile Organic Compounds (VOC), including those from permitted, exempt, and trivial sources, will remain less than 48,000 pounds during any consecutive 12 month period. Facility owner shall maintain records that verify the facility's monthly VOC emissions. These records must be maintained at the facility for a minimum period of five years. Reports will be submitted Semi-annually, in a format acceptable to the Commissioner's representative, which document that the facility's VOC emissions over any consecutive 12 month period were below 48,000 pounds. The reports must include information that documents the VOC emissions from all emission sources. The report must also include all emission factors and other data used in calculating the monthly VOC emissions. Any noncompliance with the VOC emission limit in this condition must be reported by sending a copy of such record to the NYSDEC Region 1 within 30 days of the occurrence.

Parameter Monitored: VOC
Upper Permit Limit: 24 tons per year
Monitoring Frequency: MONTHLY
Averaging Method: 12 MONTH AVERAGE - ROLLED MONTHLY
Reporting Requirements: SEMI-ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
The initial report is due 7/30/2016.
Subsequent reports are due every 6 calendar month(s).

Condition 25: Air pollution prohibited
Effective between the dates of 06/16/2016 and 06/15/2021

Applicable Federal Requirement: 6 NYCRR 211.1

Item 25.1:
No person shall cause or allow emissions of air contaminants to the outdoor atmosphere of such quantity, characteristic or duration which are injurious to human, plant or animal life or to property, or which unreasonably interfere with the comfortable enjoyment of life or property. Notwithstanding the existence of specific air quality standards or emission limits, this prohibition applies, but is not limited to, any particulate, fume, gas, mist, odor, smoke, vapor, pollen, toxic or deleterious emission, either alone or in combination with others.

Condition 26: General Provisions-Effective for entire length of Permit
Effective between the dates of 06/16/2016 and 06/15/2021

Applicable Federal Requirement: 40CFR 63, Subpart A

Item 26.1:
This condition applies to:
Emission Unit: 1-50006

Emission Unit: 1-500012

**Item 26.2:**

This emission source is subject to the applicable provisions of 40CFR 63 Subpart A. The facility owner is responsible for complying with all applicable technical, administrative and reporting requirements.

**Condition 27:** Deadlines for the submittal of initial notification of applicability—Effective for entire length of Permit

Effective between the dates of 06/16/2016 and 06/15/2021

Applicable Federal Requirement: 40CFR 63, Subpart WWWWWW

**Item 27.1:**

For a new affected source after July 1, 2008, the initial notification of applicability, as required by 40CFR 63.1109 (a), shall be submitted no later than 120 calendar days after the facility become subject to this subpart. For an existing affected source, the initial notification shall be submitted no later than 120 calendar days after July 1, 2008.

**Condition 28:** General requirements for initial notification of applicability—Effective for entire of Permit

Effective between the dates of 06/16/2016 and 06/15/2021

Applicable Federal Requirement: 40CFR 63, Subpart WWWWWW

**Item 28.1:**

Applicable notifications required under 40CFR 63.11509 (a) and (b) must be submitted by the dates specified in those sections.

**Condition 29:** Compliance Certification

Effective between the dates of 06/16/2016 and 06/15/2021

Applicable Federal Requirement: 40CFR 63, Subpart WWWWWW

**Item 29.1:**

The Compliance Certification activity will be performed for the facility:

The Compliance Certification applies to:

- Emission Unit: 1-50006
- Emission Unit: 1-50012

Regulated Contaminant(s):

- CAS No: 0NY100-00-0 TOTAL HAP
Item 29.2:
Compliance Certification shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES
Monitoring Description:

For Nickel Plating (Lead/Tin bath) and Lead/Tin plating (copper bath), the facility must implement the applicable management practices in following paragraph (1) through (12), as practicable.

1) Minimize bath agitation when removing any parts processed in the tank, as practicable except when necessary to meet part quality requirements.

2) Maximize the draining of bath solution back into the tank, as practicable, by extending drip time when removing parts from the tank; using drain boards (also known as drip shields); or withdrawing parts slowly from the tank, as practicable.

3) Optimize the design of barrels, racks, and parts to minimize dragout of bath solution (such as by using slotted barrels and tilted racks, or by designing parts with flow-through holes to allow the tank solution to drip back into the tank), as practicable.

4) Use tank covers, if already owned and available at the facility, whenever practicable.

5) Minimize or reduce heating of process tanks, as practicable (e.g., when doing so would not interrupt production or adversely affect part quality).

6) Perform regular repair, maintenance, and preventive maintenance of racks, barrels, and other equipment associated with affected sources, as practicable.

7) Minimize bath contamination, such as through the prevention or quick recovery of dropped parts, use of distilled/de-ionized water, water filtration, pre-cleaning of parts to be plated, and thorough rinsing of pre-treated parts to be plated, as practicable.

8) Maintain quality control of chemicals, and chemical and other bath ingredient concentrations in the tanks, as practicable.

9) Perform general good housekeeping, such as regular sweeping or vacuuming, if needed, and periodic washdowns, as practicable.

10) Minimize spills and overflow of tanks, as
(11) Use squeegee rolls in continuous or reel-to-reel plating tanks, as practicable.

(12) Perform regular inspections to identify leaks and other opportunities for pollution prevention.

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION

Reporting Requirements: ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
The initial report is due 1/30/2017.
Subsequent reports are due every 12 calendar month(s).

**Condition 30: Compliance Certification**

**Effective between the dates of 06/16/2016 and 06/15/2021**

**Applicable Federal Requirement:** 40CFR 63, Subpart WWWW

**Item 30.1:**
The Compliance Certification activity will be performed for the facility:
The Compliance Certification applies to:

- Emission Unit: 1-50006
- Emission Unit: 1-50012

**Regulated Contaminant(s):**
CAS No: 0NY100-00-0 TOTAL HAP

**Item 30.2:**
Compliance Certification shall include the following monitoring:

**Monitoring Type:** RECORD KEEPING/MAINTENANCE PROCEDURES

**Monitoring Description:**
For Nickel Plating (Lead/Tin bath) and Lead/Tin plating (Copper bath) the facility must comply with the requirements in following paragraph (1), (2) or (3).

1) The facility must use a wetting agent/fume suppressant, as defined in §63.11511, “What definitions apply to this subpart?”, in the bath of the affected tank according to paragraphs (a)(1)(i) through (iii) of this section.

   (i) The facility must initially add the wetting agent/fume suppressant in the amounts recommended by the manufacturer for the specific type of electrolytic process.

   (ii) The facility must add wetting agent/fume suppressant
in proportion to the other bath chemistry ingredients that are added to replenish the tank bath, as in the original make-up of the tank.

(iii) If a wetting agent/fume suppressant is included in the electrolytic process bath chemicals used in the affected tank according to the manufacturer's instructions, it is not necessary to add additional wetting agent/fume suppressants to the tank to comply with this rule.

(2) The facility must capture and exhaust emissions from the affected tank to any one of the following emission control devices: composite mesh pad, packed bed scrubber, or mesh pad mist eliminator, according to paragraphs (a)(2)(i) and (ii) of this section.

(i) The facility ust operate all capture and control devices according to the manufacturer's specifications and operating instructions.

(ii) The facility must keep the manufacturer's specifications and operating instructions at the facility at all times in a location where they can be easily accessed by the operators.

(3) The facility must cover the tank surface according to paragraph (a)(3)(i) or (ii) of this section.

(i) For batch electrolytic process tanks, as defined in §63.11511, “What definitions apply to this subpart?”, you must use a tank cover, as defined in §63.11511, over all of the effective surface area of the tank for at least 95 percent of the electrolytic process operating time.

(ii) For continuous electrolytic process tanks, as defined in §63.11511, “What definitions apply to this subpart?”, you must cover at least 75 percent of the surface of the tank, as defined in §63.11511, whenever the electrolytic process tank is in operation.

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION
Reporting Requirements: ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
The initial report is due 1/30/2017.
Subsequent reports are due every 12 calendar month(s).
*** Emission Unit Level ***

**Condition 31: Emission Point Definition By Emission Unit**

**Effective between the dates of 06/16/2016 and 06/15/2021**

**Applicable Federal Requirement:** 6 NYCRR Subpart 201-6

**Item 31.1:**
The following emission points are included in this permit for the cited Emission Unit:

- **Emission Unit:** 0-10001
  - **Emission Point:** 01001
    - Height (ft.): 35
    - Diameter (in.): 12
    - NYTMN (km.): 4521.9
    - NYTME (km.): 632.6
    - Building: 1

**Item 31.2:**
The following emission points are included in this permit for the cited Emission Unit:

- **Emission Unit:** 0-10002
  - **Emission Point:** 01002
    - Height (ft.): 35
    - Diameter (in.): 12
    - NYTMN (km.): 4521.9
    - NYTME (km.): 632.6
    - Building: 1

**Item 31.3:**
The following emission points are included in this permit for the cited Emission Unit:

- **Emission Unit:** 0-10003
  - **Emission Point:** 01003
    - Height (ft.): 36
    - Diameter (in.): 3
    - NYTMN (km.): 4521.9
    - NYTME (km.): 632.6
    - Building: 1

**Item 31.4:**
The following emission points are included in this permit for the cited Emission Unit:

- **Emission Unit:** 0-10004
  - **Emission Point:** 01004
    - Height (ft.): 35
    - Diameter (in.): 12
    - NYTMN (km.): 4521.9
    - NYTME (km.): 632.6
    - Building: 1

**Item 31.5:**
The following emission points are included in this permit for the cited Emission Unit:

- **Emission Unit:** 1-00200
  - **Emission Point:** 00200
    - Height (ft.): 25
    - Diameter (in.): 12
    - NYTMN (km.): 4521.9
    - NYTME (km.): 632.6
    - Building: 10
Item 31.6:  
The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: 1-00202

Emission Point: 00202  
Height (ft.): 25  Diameter (in.): 16  
NYTMN (km.): 4521.9  NYTME (km.): 632.6  Building: 10

Item 31.7:  
The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: 1-00203

Emission Point: 00203  
Height (ft.): 25  Diameter (in.): 8  
NYTMN (km.): 4521.9  NYTME (km.): 632.6  Building: 10

Item 31.8:  
The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: 1-00205

Emission Point: 00205  
Height (ft.): 25  Diameter (in.): 14  
NYTMN (km.): 4521.9  NYTME (km.): 632.6  Building: 10

Emission Point: 00206  
Height (ft.): 25  Diameter (in.): 12  
NYTMN (km.): 4521.9  NYTME (km.): 632.6  Building: 10

Item 31.9:  
The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: 1-00206

Emission Point: 00220  
Height (ft.): 25  Diameter (in.): 14  
NYTMN (km.): 4521.9  NYTME (km.): 632.6  Building: 10

Emission Point: 00221  
Height (ft.): 25  Diameter (in.): 12  
NYTMN (km.): 4521.9  NYTME (km.): 632.6  Building: 10

Item 31.10:  
The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: 1-30002

Emission Point: 30002  
Height (ft.): 29  Diameter (in.): 9  
NYTMN (km.): 4521.9  NYTME (km.): 632.5  Building: 15
Item 31.11:  
The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: 1-30200

Emission Point: 30200

Height (ft.): 29  
Diameter (in.): 9  
NYTMN (km.): 4521.9  
NYTME (km.): 632.5  
Building: 15

Item 31.12:  
The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: 1-50001

Emission Point: 00001

Height (ft.): 23  
Diameter (in.): 10  
NYTMN (km.): 4522.0  
NYTME (km.): 632.5  
Building: 15

Item 31.13:  
The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: 1-50002

Emission Point: 00002

Height (ft.): 23  
Diameter (in.): 10  
NYTMN (km.): 4522.0  
NYTME (km.): 632.5  
Building: 15

Item 31.14:  
The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: 1-50003

Emission Point: 00003

Height (ft.): 26  
Diameter (in.): 22  
NYTMN (km.): 4522.0  
NYTME (km.): 632.5  
Building: 15

Item 31.15:  
The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: 1-50004

Emission Point: 00004

Height (ft.): 19  
Diameter (in.): 14  
NYTMN (km.): 4522.0  
NYTME (km.): 632.5  
Building: 15

Item 31.16:  
The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: 1-50006

Emission Point: 00006
Item 31.17:
The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: 1-50010
Emission Point: 00010
Height (ft.): 19  Diameter (in.): 31
NYTMN (km.): 4522.  NYTME (km.): 632.5  Building: 15

Item 31.18:
The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: 1-50012
Emission Point: 00012
Height (ft.): 16  Diameter (in.): 36
NYTMN (km.): 4522.  NYTME (km.): 632.5  Building: 15

Item 31.19:
The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: 1-50013
Emission Point: 00013
Height (ft.): 20  Diameter (in.): 18
NYTMN (km.): 4522.  NYTME (km.): 632.5  Building: 15

Item 31.20:
The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: 1-50014
Emission Point: 00014
Height (ft.): 17  Diameter (in.): 10
NYTMN (km.): 4522.  NYTME (km.): 632.5  Building: 15

Item 31.21:
The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: 1-50023
Emission Point: 00023
Height (ft.): 20  Diameter (in.): 18
NYTMN (km.): 4522.  NYTME (km.): 632.5  Building: 15

Item 31.22:
The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: 1-50024
Emission Point: 00024
Height (ft.): 32 Diameter (in.): 18
NYTMN (km.): 4522. NYTME (km.): 632.5 Building: 15

Item 31.23:
The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: 1-50027

Emission Point: 00027
Height (ft.): 26 Diameter (in.): 18
NYTMN (km.): 4522. NYTME (km.): 632.5 Building: 15

Item 31.24:
The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: 1-50029

Emission Point: 00029
Height (ft.): 19 Diameter (in.): 10
NYTMN (km.): 4522. NYTME (km.): 632.5 Building: 15

Item 31.25:
The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: 1-50030

Emission Point: 00030
Height (ft.): 25 Diameter (in.): 8
NYTMN (km.): 4522. NYTME (km.): 632.5 Building: 15

Item 31.26:
The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: 1-50031

Emission Point: 00031
Height (ft.): 28 Diameter (in.): 36
NYTMN (km.): 4522. NYTME (km.): 632.5 Building: 15

Item 31.27:
The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: 1-50032

Emission Point: 00032
Height (ft.): 10 Diameter (in.): 8
NYTMN (km.): 4522. NYTME (km.): 632.5 Building: 15

Condition 32: Process Definition By Emission Unit
Effective between the dates of 06/16/2016 and 06/15/2021
Applicable Federal Requirement: 6 NYCRR Subpart 201-6

**Item 32.1:**
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 0-10001
Process: P24  Source Classification Code: 3-05-030-99
Process Description:
- Casting - 12 casting machines - ceramic roll formation.
  - Dryers on casting belt batches contain isopropanol.

Emission Source/Control: 10011 - Process

**Item 32.2:**
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 0-10002
Process: P21  Source Classification Code: 3-13-035-02
Process Description: Mixing fume hood - Exhaust for the mixing area.

Emission Source/Control: 10021 - Process

**Item 32.3:**
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 0-10003
Process: P22  Source Classification Code: 3-05-030-99
Process Description:
- Batching room - Batch mixing and formation of ceramic.
- Various mixers (all <100 gallons) and grinders. Batches contain alcohol.

Emission Source/Control: 10031 - Process

**Item 32.4:**
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 0-10004
Process: P25  Source Classification Code: 3-04-020-04
Process Description:
- Furnace room/BBO - Furnace room for binder burnout.

Emission Source/Control: 10041 - Process
Emission Source/Control: 10042 - Process

**Item 32.5:**
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 1-00200
Process: P18  Source Classification Code: 4-05-008-01
Process Description:
Screening room with fume hood - Screening room, for the manufacture of screens for printing. Also the removal of metal on screen print to etch pattern (ferric chloride is used).

Emission Source/Control: 02001 - Process

Item 32.6:
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 1-00202
Process: P19  Source Classification Code: 3-04-020-04
Process Description: Firing in Kiln

Emission Source/Control: 02021 - Process

Item 32.7:
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 1-00203
Process: P20  Source Classification Code: 4-02-009-04
Process Description:
Screen cleaning room/low point room; vents for solvent use - A cleaning room with a fume hood. Vent is for solvent use - cork and tape removal of blocks, soak in a solution of 80%/20% mixes of Speedball/IPA and Axarel 2200/IPA.

Emission Source/Control: 02031 - Process

Item 32.8:
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 1-00204
Process Description:
Dicing room - Cutting of ceramics parts to required sizes.

Emission Source/Control: 02042 - Control
Control Type: FABRIC FILTER

Emission Source/Control: 02041 - Process

Item 32.9:
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 1-00205
Process: P30  Source Classification Code: 4-05-008-01
Process Description:
Ceramic blanks are cut, ink is applied to some blanks
sheets are stacked to make a block; screens are cleaned
with solvent soaked rags which contain 50/50
toluene/isopropanol.

Emission Source/Control: 02005 - Process

**Item 32.10:**
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 1-00206
Process: P31  Source Classification Code: 4-05-008-01
Process Description:
Ceramic blanks are cut, ink is applied to some blanks
sheets are stacked to make a block; screens are cleaned
with solvent soaked rags which contain 50/50
toluene/isopropanol.

Emission Source/Control: 02002 - Process

**Item 32.11:**
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 1-30002
Process: P26  Source Classification Code: 3-13-035-02
Process Description:
Termination ink blending - formation of silvering inks
and cleaning with 50% Axeral 2200 and 50% isopropanol
solution.

Emission Source/Control: 30021 - Process
Emission Source/Control: 30022 - Process

**Item 32.12:**
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 1-30200
Process: P60  Source Classification Code: 3-13-035-02
Process Description:
Electrode ink blending - Preparation of palladium metal
inks & cleaning of vessels/utensils using a solution of
50% isopropanol and 50% toluene.

Emission Source/Control: 30200 - Process

**Item 32.13:**
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 1-50001
Process: P01  Source Classification Code: 6-31-340-27
Process Description:
Quality control lab - Testing and rating of parts; also
grinding and polishing of acrylic.

Emission Source/Control: 00011 - Process

**Item 32.14:**
This permit authorizes the following regulated processes for the cited Emission Unit:

- **Emission Unit:** 1-50002
  - **Process:** P02
  - **Source Classification Code:** 3-13-035-02
  - **Process Description:**
    Chipstar - Ink application and cleaning performed by Chipstar equipment. Ink is applied to ceramic chips and cleaned with Varsol and Axarel 2000.

  Emission Source/Control: 00021 - Process

  Emission Source/Control: 00222 - Process

**Item 32.15:**
This permit authorizes the following regulated processes for the cited Emission Unit:

- **Emission Unit:** 1-50003
  - **Process:** P03
  - **Source Classification Code:** 3-04-020-04
  - **Process Description:** Drying kilns - Driving off of organics in inks.

  Emission Source/Control: 00031 - Process

**Item 32.16:**
This permit authorizes the following regulated processes for the cited Emission Unit:

- **Emission Unit:** 1-50004
  - **Process:** P04
  - **Source Classification Code:** 3-13-035-02
  - **Process Description:**
    Palomar machines, ink application and cleaning - Ink is applied to ceramic chips and cleaned with Varsol and Axarel 2000.

  Emission Source/Control: 00041 - Process

**Item 32.17:**
This permit authorizes the following regulated processes for the cited Emission Unit:

- **Emission Unit:** 1-50006
  - **Process:** P06
  - **Source Classification Code:** 3-09-060-05
  - **Process Description:**
    Fume Hoods, lead/tin bath - nickel plating bath under fume hoods; also silver cleaning.

  Emission Source/Control: 00061 - Process

  Emission Source/Control: 00062 - Process
Item 32.18:
This permit authorizes the following regulated processes for the cited Emission Unit:

   Emission Unit:  1-50010
   Process: P09                   Source Classification Code: 4-01-002-02
   Process Description:
       Parts cleaning and oven drying - ovens to drive off acetone.
   Emission Source/Control:  00101 - Process

Item 32.19:
This permit authorizes the following regulated processes for the cited Emission Unit:

   Emission Unit:  1-50012
   Process: P10                   Source Classification Code: 3-09-060-05
   Process Description:
       Lead/tin plating - performed under fume hood. Also, copper bath performed under fume hood.
   Emission Source/Control:  00121 - Process

Item 32.20:
This permit authorizes the following regulated processes for the cited Emission Unit:

   Emission Unit:  1-50013
   Process: P61                   Source Classification Code: 3-13-035-01
   Process Description:
       Solder reflow kiln - parts are passed through electric furnace to melt solder.
   Emission Source/Control:  00131 - Process

Item 32.21:
This permit authorizes the following regulated processes for the cited Emission Unit:

   Emission Unit:  1-50014
   Process: P11                   Source Classification Code: 4-02-009-04
   Process Description:
       Chemical dispensing and waste storage - storage area for solvents.
   Emission Source/Control:  00141 - Process

Item 32.22:
This permit authorizes the following regulated processes for the cited Emission Unit:

   Emission Unit:  1-50023
   Process: P12                   Source Classification Code: 4-02-009-29
   Process Description:
       Fume hood, hand dip pots, solder dip pots, degreaser. Parts are degreased under a fume hood using a Branson
model B950R degreaser and Luniun ES solvent.

Emission Source/Control: 00231 - Process
Emission Source/Control: 00232 - Process
Emission Source/Control: 00233 - Process
Emission Source/Control: 00234 - Process

Item 32.23:
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 1-50024
Process: P13 Source Classification Code: 3-13-035-01
Process Description: Abrading room - hand dip pots; aluminum oxide particles.

Emission Source/Control: 00242 - Control
Control Type: FABRIC FILTER
Emission Source/Control: 00241 - Process

Item 32.24:
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 1-50027
Process: P15 Source Classification Code: 4-02-009-29
Process Description: QA lab hood, solder station, IPA and flux

Emission Source/Control: 00271 - Process

Item 32.25:
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 1-50029
Process: P17 Source Classification Code: 3-09-060-05
Process Description: Fume hood - Atomic adsorption and termination paste firing under fume hood.

Emission Source/Control: 00291 - Process
Emission Source/Control: 00292 - Process

Item 32.26:
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 1-50030
Process: P27 Source Classification Code: 3-13-030-63
Process Description: Belt Cleaning and chip wash
Emission Source/Control: 00300 - Process

**Item 32.27:**
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 1-50031  
Process: P29  
Source Classification Code: 3-09-060-05  
Process Description:  
SBE automatic nickel/tin plating system. parts cleaning  
and oven drying

Emission Source/Control: 00310 - Process

**Item 32.28:**
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 1-50032  
Process: P28  
Source Classification Code: 3-08-006-99  
Process Description: Mold making area

Emission Source/Control: 00320 - Process

**Condition 33:**  
**Compliance Certification**  
**Effective between the dates of 06/16/2016 and 06/15/2021**

**Applicable Federal Requirement:** 6 NYCRR 226.2

**Item 33.1:**
The Compliance Certification activity will be performed for:

Emission Unit: 1-50023  
Emission Point: 00023

Regulated Contaminant(s):
- CAS No: 000067-63-0  ISOPROPYL ALCOHOL
- CAS No: 000075-65-0  2-METHYL-2-PROPANOL
- CAS No: 000106-88-7  ETHYL OXIRANE
- CAS No: 000109-87-5  METHANE, DIMETHOXY
- CAS No: 000106-94-5  PROPANE, 1-BROMO-

**Item 33.2:**
Compliance Certification shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES
Monitoring Description:
- No person shall conduct solvent metal cleaning unless:
  - (a) Solvent is stored in covered containers and waste solvent is transferred or disposed of in such manner that less than 20% of the waste solvent (by weight) can evaporate into the atmosphere.
  - (b) Equipment used in solvent metal cleaning is maintained to minimize leaks and fugitive emissions.
(c) Equipment used in solvent metal cleaning displays a conspicuous summery of proper operating procedures consistent with minimizing emissions of volatile organic compounds.
(d) Equipment covers are closed when the solvent metal cleaning unit is not in service.
(e) A record of solvent consumption shall be maintained for each year and made available for review.

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION
Reporting Requirements: ANNually (CALENDAR)
Reports due 30 days after the reporting period.
The initial report is due 1/30/2017.
Subsequent reports are due every 12 calendar month(s).

Condition 34: Compliance Certification
Effective between the dates of 06/16/2016 and 06/15/2021

Applicable Federal Requirement: 6 NYCRR 226.3 (b)

Item 34.1:
The Compliance Certification activity will be performed for:

<table>
<thead>
<tr>
<th>Emission Unit: 1-50023</th>
<th>Emission Point: 00023</th>
</tr>
</thead>
</table>

Regulated Contaminant(s):
- CAS No: 000067-63-0 ISOPROPYL ALCOHOL
- CAS No: 000075-65-0 2-METHYL-2-PROPANOL
- CAS No: 000106-88-7 ETHYL OXIRANE
- CAS No: 000109-87-5 METHANE, DIMETHOXY
- CAS No: 000106-94-5 PROPANE, 1-BROMO-

Item 34.2:
Compliance Certification shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES
Monitoring Description:
Except where otherwise permitted by the commissioner, the following device is required by a source owner conducting solvent metal cleaning:
Open-top vapor degreasing.
(1) The cover shall be operated easily without disturbing the vapor zone.
(2) Safety switches shall shut off sump heat if the condenser malfunctions and shall shut off the pump if vapor level drops excessively.
(3) One of the following shall be provided:
   (I) a free board ratio that is greater than or equal to 0.75, and a powered or mechanically assisted cover if the top opening is greater than 10 square feet;
   (ii) a refrigerated chiller;
(iii) local exhaust ventilation and an adsorption or other system for collection of volatile organic compound; or
(iv) an enclosed design whereby the cover is open only when the dry part is entering or exiting the degreaser.

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION

Reporting Requirements: ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
The initial report is due 1/30/2017.
Subsequent reports are due every 12 calendar month(s).

Condition 35: Compliance Certification
Effective between the dates of 06/16/2016 and 06/15/2021

Applicable Federal Requirement: 6 NYCRR 226.4 (b)

Item 35.1:
The Compliance Certification activity will be performed for:

<table>
<thead>
<tr>
<th>Emission Unit</th>
<th>Emission Point</th>
</tr>
</thead>
<tbody>
<tr>
<td>1-50023</td>
<td>00023</td>
</tr>
</tbody>
</table>

Regulated Contaminant(s):
- CAS No: 000067-63-0 ISOPROPYL ALCOHOL
- CAS No: 000075-65-0 2-METHYL-2-PROPanOL
- CAS No: 000106-88-7 ETHYL OXIRANE
- CAS No: 000109-87-5 METHANE, DIMETHOXY
- CAS No: 000106-94-5 PROPANE, 1-BROMO-

Item 35.2:
Compliance Certification shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES
Monitoring Description:
Except where otherwise permitted by the commissioner, the following operating practices are required by a source owner conducting solvent metal cleaning for Open-top vapor degreasing:
(1) Minimize solvent carryout by the following measures:
   (i) rack parts to allow full drainage;
   (ii) move parts in and out of degreaser tank at less than 11 ft/min;
   (iii) degrease the work load in the vapor zone at least 30 seconds or until condensation ceases;
   (iv) tip out any pools of solvent before removal; and
   (v) dry parts for at least 15 seconds or visually dry before removal.
(2) Degrease only nonporous or nonadsorbent material.
(3) Work loads shall not occupy more than half of degreaser tank open-top area.
(4) Spray only below the vapor level.

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION
Reporting Requirements: ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
The initial report is due 1/30/2017.
Subsequent reports are due every 12 calendar month(s).
STATE ONLY ENFORCEABLE CONDITIONS
**** Facility Level ****

NOTIFICATION OF GENERAL PERMITTEE OBLIGATIONS
This section contains terms and conditions which are not federally enforceable. Permittees may also have other obligations under regulations of general applicability

Item A: Emergency Defense - 6 NYCRR 201-1.5

An emergency, as defined by subpart 201-2, constitutes an affirmative defense to penalties sought in an enforcement action brought by the Department for noncompliance with emissions limitations or permit conditions for all facilities in New York State.

(a) The affirmative defense of emergency shall be demonstrated through properly signed, contemporaneous operating logs, or other relevant evidence that:

(1) An emergency occurred and that the facility owner or operator can identify the cause(s) of the emergency;
(2) The equipment at the permitted facility causing the emergency was at the time being properly operated and maintained;
(3) During the period of the emergency the facility owner or operator took all reasonable steps to minimize levels of emissions that exceeded the emission standards, or other requirements in the permit; and
(4) The facility owner or operator notified the Department within two working days after the event occurred. This notice must contain a description of the emergency, any steps taken to mitigate emissions, and corrective actions taken.

(b) In any enforcement proceeding, the facility owner or operator seeking to establish the occurrence of an emergency has the burden of proof.

(c) This provision is in addition to any emergency or upset provision contained in any applicable requirement.

Item B: General Provisions for State Enforceable Permit Terms and Condition - 6 NYCRR Part 201-5

Any person who owns and/or operates stationary sources shall operate and maintain all emission units and any required emission control devices in compliance with all applicable Parts of this Chapter and existing laws, and shall operate the facility in accordance with all criteria, emission limits, terms, conditions, and
standards in this permit. Failure of such person to properly operate and maintain the effectiveness of such emission units and emission control devices may be sufficient reason for the Department to revoke or deny a permit.

The owner or operator of the permitted facility must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility regulated by this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations or law.

STATE ONLY APPLICABLE REQUIREMENTS
The following conditions are state applicable requirements and are not subject to compliance certification requirements unless otherwise noted or required under 6 NYCRR Part 201.

Condition 36: Contaminant List
Effective between the dates of 06/16/2016 and 06/15/2021

Applicable State Requirement:ECL 19-0301

Item 36.1:
Emissions of the following contaminants are subject to contaminant specific requirements in this permit (emission limits, control requirements or compliance monitoring conditions).

CAS No: 000067-63-0
Name: ISOPROPYL ALCOHOL

CAS No: 000075-65-0
Name: 2-METHYL-2-PROPANOL

CAS No: 000106-88-7
Name: ETHYL OXIRANE

CAS No: 000106-94-5
Name: PROPANE, 1-BROMO-

CAS No: 000109-87-5
Name: METHANE, DIMETHOXY

CAS No: 0NY100-00-0
Name: TOTAL HAP

CAS No: 0NY998-00-0
Name: VOC
Condition 37: Malfunctions and start-up/shutdown activities
Effective between the dates of 06/16/2016 and 06/15/2021

Applicable State Requirement: 6 NYCRR 201-1.4

Item 37.1:
(a) The facility owner or operator shall take all necessary and appropriate actions to prevent the emission of air pollutants that result in contravention of any applicable emission standard during periods of start-up, shutdown, or malfunction.

(b) The facility owner or operator shall compile and maintain records of all equipment malfunctions, maintenance, or start-up/shutdown activities when they can be expected to result in an exceedance of any applicable emission standard, and shall submit a report of such activities to the department when requested to do so, or when so required by a condition of a permit issued for the corresponding air contamination source. Such reports shall state whether any violations occurred and, if so, whether they were unavoidable, include the time, frequency and duration of the maintenance and/or start-up/shutdown activities, and an estimate of the emission rates of any air contaminants released. Such records shall be maintained for a period of at least five years and made available for review to department representatives upon request. Facility owners or operators subject to continuous stack monitoring and quarterly reporting requirements need not submit additional reports for equipment maintenance or start-up/shutdown activities for the facility to the department.

(c) In the event that emissions of air contaminants in excess of any emission standard in this Subchapter occur due to a malfunction, the facility owner or operator shall compile and maintain records of the malfunction and notify the department as soon as possible during normal working hours, but not later than two working days after becoming aware that the malfunction occurred. When requested by the department, the facility owner or operator shall submit a written report to the department describing the malfunction, the corrective action taken, identification of air contaminants, and an estimate of the emission rates.

(d) The department may also require the owner or operator to include, in reports described under Subdivisions (b) and (c) of this Section, an estimate of the maximum ground level concentration of each air contaminant emitted and the effect of such emissions.

(e) A violation of any applicable emission standard resulting from start-up, shutdown, or malfunction conditions at a permitted or registered facility may not be subject to an enforcement action by the department and/or penalty if the department determines, in its sole discretion, that such a violation was unavoidable. The actions and recordkeeping and reporting requirements listed above must be adhered to in such circumstances.

Condition 38: Visible Emissions Limited
Effective between the dates of 06/16/2016 and 06/15/2021

Applicable State Requirement: 6 NYCRR 211.2

Item 38.1:
Except as permitted by a specific part of this Subchapter and for open fires for which a restricted burning permit has been issued, no person shall cause or allow any air contamination source to
emit any material having an opacity equal to or greater than 20 percent (six minute average) except for one continuous six-minute period per hour of not more than 57 percent opacity.
