PERMIT
Under the Environmental Conservation Law (ECL)

IDENTIFICATION INFORMATION

Permit Type: Air Title V Facility
Permit ID: 3-5512-00041/00083
Effective Date: 10/10/2012 Expiration Date: 10/09/2017

Permit Issued To: BASF CORPORATION
100 PARK AVE
FLORHAM PARK, NJ 07932

Contact: JOHN W MURNANE
1057 LOWER SOUTH ST
PEEKSKILL, NY 10566
(914) 402-3430

Facility: BASF CORP
1057 LOWER SOUTH ST
PEEKSKILL, NY 10566

Description:
The BASF Corporation Peekskill NY facility produces pigments consisting primarily of titanium coated mica and iron oxide coated mica, as well some bismuth oxychloride mica. In the manufacturing of the titanium coated mica, the process includes particle sizing in reaction slurry vessels, mixing with titanyl chloride solution and the addition of sodium hydroxide to maintain pH. The slurry is washed and dewatered on a vacuum filter followed by drying to fix the coating. Scrubbers are employed to control acid emissions and fabric filters for the control of particulate matter emissions. The dried product is pneumatically conveyed to tote bins for further packaging and shipment for use in the cosmetic, paint, and plastic markets.

The iron oxide coated mica process is similar to the titanium coated process except that ferric chloride solution is added to the mica instead of titanyl chloride. Adding bismuth nitrate to the sodium chloride solution produces the bismuth oxychloride pigments.

The facility main combustion sources are three natural gas boilers (two rated at 12.5 MMBtu/Hr and one at 25.1 MMBtu/Hr) providing operational building heat and several natural gas fired furnaces and driers.
By acceptance of this permit, the permittee agrees that the permit is contingent upon strict compliance with the ECL, all applicable regulations, the General Conditions specified and any Special Conditions included as part of this permit.

Permit Administrator: KENNETH R GRZYB
NYSDEC - REGION 3
21 S PUTT CORNERS RD
NEW PALTZ, NY 12561

Authorized Signature: _____________________________ Date: ___ / ___ / _____
Notification of Other State Permittee Obligations

Item A: Permittee Accepts Legal Responsibility and Agrees to Indemnification

The permittee expressly agrees to indemnify and hold harmless the Department of Environmental Conservation of the State of New York, its representatives, employees and agents ("DEC") for all claims, suits, actions, and damages, to the extent attributable to the permittee's acts or omissions in connection with the compliance permittee's undertaking of activities in connection with, or operation and maintenance of, the facility or facilities authorized by the permit whether in compliance or not in any compliance with the terms and conditions of the permit. This indemnification does not extend to any claims, suits, actions, or damages to the extent attributable to DEC's own negligent or intentional acts or omissions, or to any claims, suits, or actions naming the DEC and arising under article 78 of the New York Civil Practice Laws and Rules or any citizen suit or civil rights provision under federal or state laws.

Item B: Permittee's Contractors to Comply with Permit

The permittee is responsible for informing its independent contractors, employees, agents and assigns of their responsibility to comply with this permit, including all special conditions while acting as the permittee's agent with respect to the permitted activities, and such persons shall be subject to the same sanctions for violations of the Environmental Conservation Law as those prescribed for the permittee.

Item C: Permittee Responsible for Obtaining Other Required Permits

The permittee is responsible for obtaining any other permits, approvals, lands, easements and rights-of-way that may be required to carry out the activities that are authorized by this permit.

Item D: No Right to Trespass or Interfere with Riparian Rights

This permit does not convey to the permittee any right to trespass upon the lands or interfere with the riparian rights of others in order to perform the permitted work nor does it authorize the impairment of any rights, title, or interest in real or personal property held or vested in a person not a party to the permit.

DEC GENERAL CONDITIONS

**** General Provisions ****

For the purpose of your Title V permit, the following section contains state-only enforceable terms and conditions.

GENERAL CONDITIONS - Apply to ALL Authorized Permits.

Condition 1: Facility Inspection by the Department
Applicable State Requirement: ECL 19-0305

Item 1.1:
The permitted site or facility, including relevant records, is subject to inspection at reasonable hours and intervals by an authorized representative of the Department of Environmental Conservation (the Department) to determine whether the permittee is complying with this permit and the ECL. Such representative may order the work suspended pursuant to ECL 71-0301 and SAPA 401(3).

Item 1.2:
The permittee shall provide a person to accompany the Department's representative during an inspection to the permit area when requested by the Department.

Item 1.3:
A copy of this permit, including all referenced maps, drawings and special conditions, must be available for inspection by the Department at all times at the project site or facility. Failure to produce a copy of the permit upon request by a Department representative is a violation of this permit.

Condition 2: Relationship of this Permit to Other Department Orders and Determinations
Applicable State Requirement: ECL 3-0301 (2) (m)

Item 2.1:
Unless expressly provided for by the Department, issuance of this permit does not modify, supersede or rescind any order or determination previously issued by the Department or any of the terms, conditions or requirements contained in such order or determination.

Condition 3: Applications for permit renewals, modifications and transfers
Applicable State Requirement: 6 NYCRR 621.11

Item 3.1:
The permittee must submit a separate written application to the Department for renewal, modification or transfer of this permit. Such application must include any forms or supplemental information the Department requires. Any renewal, modification or transfer granted by the Department must be in writing.

Item 3.2:
The permittee must submit a renewal application at least 180 days before expiration of permits for Title V Facility Permits, or at least 30 days before expiration of permits for State Facility Permits.

Item 3.3:
Permits are transferrable with the approval of the department unless specifically prohibited by
the statute, regulation or another permit condition. Applications for permit transfer should be submitted prior to actual transfer of ownership.

**Condition 4: Permit modifications, suspensions or revocations by the Department**

**Applicable State Requirement:** 6 NYCRR 621.13

**Item 4.1:**
The Department reserves the right to exercise all available authority to modify, suspend, or revoke this permit in accordance with 6NYCRR Part 621. The grounds for modification, suspension or revocation include:

a) materially false or inaccurate statements in the permit application or supporting papers;
b) failure by the permittee to comply with any terms or conditions of the permit;
c) exceeding the scope of the project as described in the permit application;
d) newly discovered material information or a material change in environmental conditions, relevant technology or applicable law or regulations since the issuance of the existing permit;
e) noncompliance with previously issued permit conditions, orders of the commissioner, any provisions of the Environmental Conservation Law or regulations of the Department related to the permitted activity.

**** Facility Level ****

**Condition 5: Submission of application for permit modification or renewal-REGION 3 HEADQUARTERS**

**Applicable State Requirement:** 6 NYCRR 621.6 (a)

**Item 5.1:**
Submission of applications for permit modification or renewal are to be submitted to:

NYSDEC Regional Permit Administrator
Region 3 Headquarters
Division of Environmental Permits
21 South Putt Corners Road
New Paltz, NY 12561-1696

NOTIFICATION OF GENERAL PERMITTEE OBLIGATIONS
The items listed below are not subject to the annual compliance certification requirements under Title V. Permittees may also have other obligations under regulations of general applicability.

Item A: Public Access to Recordkeeping for Title V Facilities - 6 NYCRR 201-1.10 (b)
The Department will make available to the public any permit application, compliance plan, permit, and monitoring and compliance certification report pursuant to Section 503(e) of the Act, except for information entitled to confidential treatment pursuant to 6 NYCRR Part 616 - Public Access to records and Section 114(c) of the Act.

Item B: Timely Application for the Renewal of Title V Permits - 6 NYCRR 201-6.3 (a) (4)
Owners and/or operators of facilities having an issued Title V permit shall submit a complete application at least 180 days, but not more than eighteen months, prior to the date of permit expiration for permit renewal purposes.

Item C: Certification by a Responsible Official - 6 NYCRR 201-6.3 (d) (12)
Any application, form, report or compliance certification required to be submitted pursuant to the federally enforceable portions of this permit shall contain a certification of truth, accuracy and completeness by a responsible official. This certification shall state that based on information and belief formed after reasonable inquiry, the statements and information in the document are true, accurate, and complete.

Item D: Requirement to Comply With All Conditions - 6 NYCRR 201-6.5 (a) (2)
The permittee must comply with all conditions of the Title V facility permit. Any permit non-compliance constitutes a violation of the Act and is grounds for enforcement action; for permit termination, revocation and reissuance, or modification; or for denial of a permit renewal application.

Item E: Permit Revocation, Modification, Reopening, Reissuance or Termination, and Associated Information Submission Requirements - 6 NYCRR 201-6.5 (a) (3)
This permit may be modified, revoked, reopened and reissued, or terminated for cause. The filing of a request by the permittee for a permit modification, revocation and
reissuance, or termination, or of a notification of planned changes or anticipated noncompliance does not stay any permit condition.

Item F: Cessation or Reduction of Permitted Activity Not a Defense - 6 NYCRR 201-6.5 (a) (5)
It shall not be a defense for a permittee in an enforcement action to claim that a cessation or reduction in the permitted activity would have been necessary in order to maintain compliance with the conditions of this permit.

Item G: Property Rights - 6 NYCRR 201-6.5 (a) (6)
This permit does not convey any property rights of any sort or any exclusive privilege.

Item H: Severability - 6 NYCRR 201-6.5 (a) (9)
If any provisions, parts or conditions of this permit are found to be invalid or are the subject of a challenge, the remainder of this permit shall continue to be valid.

Item I: Permit Shield - 6 NYCRR 201-6.5 (g)
All permittees granted a Title V facility permit shall be covered under the protection of a permit shield, except as provided under 6 NYCRR Subpart 201-6. Compliance with the conditions of the permit shall be deemed compliance with any applicable requirements as of the date of permit issuance, provided that such applicable requirements are included and are specifically identified in the permit, or the Department, in acting on the permit application or revision, determines in writing that other requirements specifically identified are not applicable to the major stationary source, and the permit includes the determination or a concise summary thereof. Nothing herein shall preclude the Department from revising or revoking the permit pursuant to 6 NYCRR Part 621 or from exercising its summary abatement authority. Nothing in this permit shall alter or affect the following:

i. The ability of the Department to seek to bring suit on behalf of the State of New York, or the Administrator to seek to bring suit on behalf of the United States, to immediately restrain any person causing or contributing to pollution presenting an imminent and substantial endangerment to public health, welfare or the environment to stop the emission of air pollutants causing or contributing to such pollution;

ii. The liability of a permittee of the Title V
facility for any violation of applicable requirements prior to or at the time of permit issuance;

iii. The applicable requirements of Title IV of the Act;

iv. The ability of the Department or the Administrator to obtain information from the permittee concerning the ability to enter, inspect and monitor the facility.

Item J: Reopening for Cause - 6 NYCRR 201-6.5 (i)

This Title V permit shall be reopened and revised under any of the following circumstances:

i. If additional applicable requirements under the Act become applicable where this permit's remaining term is three or more years, a reopening shall be completed not later than 18 months after promulgation of the applicable requirement. No such reopening is required if the effective date of the requirement is later than the date on which this permit is due to expire, unless the original permit or any of its terms and conditions has been extended by the Department pursuant to the provisions of Part 201-6.7 and Part 621.

ii. The Department or the Administrator determines that the permit contains a material mistake or that inaccurate statements were made in establishing the emissions standards or other terms or conditions of the permit.

iii. The Department or the Administrator determines that the Title V permit must be revised or reopened to assure compliance with applicable requirements.

iv. If the permitted facility is an "affected source" subject to the requirements of Title IV of the Act, and additional requirements (including excess emissions requirements) become applicable. Upon approval by the Administrator, excess emissions offset plans shall be deemed to be incorporated into the permit.

Proceedings to reopen and issue Title V facility permits shall follow the same procedures as apply to initial permit issuance but shall affect only those parts of the permit for which cause to reopen exists.

Reopenings shall not be initiated before a notice of such intent is provided to the facility by the Department at least thirty days in advance of the date that the permit is to be reopened, except that the Department may provide
Item K: Permit Exclusion - ECL 19-0305
The issuance of this permit by the Department and the receipt thereof by the Applicant does not and shall not be construed as barring, diminishing, adjudicating or in any way affecting any legal, administrative or equitable rights or claims, actions, suits, causes of action or demands whatsoever that the Department may have against the Applicant for violations based on facts and circumstances alleged to have occurred or existed prior to the effective date of this permit, including, but not limited to, any enforcement action authorized pursuant to the provisions of applicable federal law, the Environmental Conservation Law of the State of New York (ECL) and Chapter III of the Official Compilation of the Codes, Rules and Regulations of the State of New York (NYCRR). The issuance of this permit also shall not in any way affect pending or future enforcement actions under the Clean Air Act brought by the United States or any person.

Item L: Federally Enforceable Requirements - 40 CFR 70.6 (b)
All terms and conditions in this permit required by the Act or any applicable requirement, including any provisions designed to limit a facility's potential to emit, are enforceable by the Administrator and citizens under the Act. The Department has, in this permit, specifically designated any terms and conditions that are not required under the Act or under any of its applicable requirements as being enforceable under only state regulations.

MANDATORY FEDERALLY ENFORCEABLE PERMIT CONDITIONS
SUBJECT TO ANNUAL CERTIFICATIONS AT ALL TIMES

The following federally enforceable permit conditions are mandatory for all Title V permits and are subject to annual compliance certification requirements at all times.

Condition 1: Acceptable Ambient Air Quality
Effective between the dates of 10/10/2012 and 10/09/2017

Applicable Federal Requirement: 6 NYCRR 200.6

Item 1.1: Notwithstanding the provisions of 6 NYCRR Chapter III, Subchapter A, no person shall allow or permit any air contamination source to emit air contaminants in quantities which alone or in combination with emissions from other air contamination sources would contravene any applicable ambient air quality standard and/or cause air pollution. In such cases where contravention occurs or may occur, the Commissioner shall specify the degree and/or method of
emission control required.

Condition 2: Fees
Effective between the dates of 10/10/2012 and 10/09/2017

Applicable Federal Requirement: 6 NYCRR 201-6.5 (a) (7)

Item 2.1:
The owner and/or operator of a stationary source shall pay fees to the Department consistent with the fee schedule authorized by ECL 72-0303.

Condition 3: Recordkeeping and reporting of compliance monitoring
Effective between the dates of 10/10/2012 and 10/09/2017

Applicable Federal Requirement: 6 NYCRR 201-6.5 (c)

Item 3.1:
The following information must be included in any required compliance monitoring records and reports:

(i) The date, place, and time of sampling or measurements;

(ii) The date(s) analyses were performed;

(iii) The company or entity that performed the analyses;

(iv) The analytical techniques or methods used including quality assurance and quality control procedures if required;

(v) The results of such analyses including quality assurance data where required; and

(vi) The operating conditions as existing at the time of sampling or measurement.

Any deviation from permit requirements must be clearly identified in all records and reports. Reports must be certified by a responsible official, consistent with Section 201-6.3 of this Part 201.

Condition 4: Monitoring, Related Recordkeeping, and Reporting Requirements.
Effective between the dates of 10/10/2012 and 10/09/2017

Applicable Federal Requirement: 6 NYCRR 201-6.5 (c) (2)

Item 4.1:
Compliance monitoring and recordkeeping shall be conducted according to the terms and conditions contained in this permit and shall follow all quality assurance requirements found in applicable regulations. Records of all monitoring data and support information must be retained for a period of at least 5 years from the date of the monitoring, sampling, measurement, report, or application. Support information includes all calibration and maintenance records and all original strip-chart recordings for continuous monitoring instrumentation, and copies of all reports required by the permit.
Condition 5: Compliance Certification
Effective between the dates of 10/10/2012 and 10/09/2017

Applicable Federal Requirement: 6 NYCRR 201-6.5 (c) (3) (ii)

Item 5.1:
The Compliance Certification activity will be performed for the Facility.

Item 5.2:
Compliance Certification shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES
Monitoring Description:
To meet the requirements of this facility permit with respect to reporting, the permittee must:

Submit reports of any required monitoring at a minimum frequency of every 6 months, based on a calendar year reporting schedule. These reports shall be submitted to the Department within 30 days after the end of a reporting period. All instances of deviations from permit requirements must be clearly identified in such reports. All required reports must be certified by the responsible official for this facility.

Notify the Department and report permit deviations and incidences of noncompliance stating the probable cause of such deviations, and any corrective actions or preventive measures taken. Where the underlying applicable requirement contains a definition of prompt or otherwise specifies a time frame for reporting deviations, that definition or time frame shall govern. Where the underlying applicable requirement fails to address the time frame for reporting deviations, reports of deviations shall be submitted to the permitting authority based on the following schedule:

(1) For emissions of a hazardous air pollutant (as identified in an applicable regulation) that continue for more than an hour in excess of permit requirements, the report must be made within 24 hours of the occurrence.

(2) For emissions of any regulated air pollutant, excluding those listed in paragraph (1) of this section, that continue for more than two hours in excess of permit requirements, the report must be made within 48 hours.

(3) For all other deviations from permit requirements, the report shall be contained in the 6 month monitoring report required above.
(4) This permit may contain a more stringent reporting requirement than required by paragraphs (1), (2) or (3) above. If more stringent reporting requirements have been placed in this permit or exist in applicable requirements that apply to this facility, the more stringent reporting requirement shall apply.

If above paragraphs (1) or (2) are met, the source must notify the permitting authority by telephone during normal business hours at the Regional Office of jurisdiction for this permit, attention Regional Air Pollution Control Engineer (RAPCE) according to the timetable listed in paragraphs (1) and (2) of this section. For deviations and incidences that must be reported outside of normal business hours, on weekends, or holidays, the DEC Spill Hotline phone number at 1-800-457-7362 shall be used. A written notice, certified by a responsible official consistent with 6 NYCRR Part 201-6.3(d)(12), must be submitted within 10 working days of an occurrence for deviations reported under (1) and (2). All deviations reported under paragraphs (1) and (2) of this section must also be identified in the 6 month monitoring report required above.

The provisions of 6 NYCRR 201-1.4 shall apply if the permittee seeks to have a violation excused unless otherwise limited by regulation. In order to have a violation of a federal regulation (such as a new source performance standard or national emissions standard for hazardous air pollutants) excused, the specific federal regulation must provide for an affirmative defense during start-up, shutdowns, malfunctions or upsets. Notwithstanding any recordkeeping and reporting requirements in 6 NYCRR 201-1.4, reports of any deviations shall not be on a less frequent basis than the reporting periods described in paragraphs (1) and (4) above.

In the case of any condition contained in this permit with a reporting requirement of "Upon request by regulatory agency" the permittee shall include in the semiannual report, a statement for each such condition that the monitoring or recordkeeping was performed as required or requested and a listing of all instances of deviations from these requirements.

In the case of any emission testing performed during the previous six month reporting period, either due to a request by the Department, EPA, or a regulatory requirement, the permittee shall include in the semiannual report a summary of the testing results and shall indicate whether or not the Department or EPA has approved the
All semiannual reports shall be submitted to the Administrator (or his or her representative) as well as two copies to the Department (one copy to the regional air pollution control engineer (RAPCE) in the regional office and one copy to the Bureau of Quality Assurance (BQA) in the DEC central office). Mailing addresses for the above referenced persons are contained in the monitoring condition for 6 NYCRR Part 201-6.5(e), contained elsewhere in this permit.

Reporting Requirements: SEMI-ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
The initial report is due 1/30/2013.
Subsequent reports are due every 6 calendar month(s).

**Condition 6: Compliance Certification**
**Effective between the dates of 10/10/2012 and 10/09/2017**

**Applicable Federal Requirement:** 6 NYCRR 201-6.5(e)

**Item 6.1:**
The Compliance Certification activity will be performed for the Facility.

**Item 6.2:**
Compliance Certification shall include the following monitoring:

**Monitoring Type:** RECORD KEEPING/MAINTENANCE PROCEDURES

**Monitoring Description:**
Requirements for compliance certifications with terms and conditions contained in this facility permit include the following:

i. Compliance certifications shall contain:
   - the identification of each term or condition of the permit that is the basis of the certification;
   - the compliance status;
   - whether compliance was continuous or intermittent;
   - the method(s) used for determining the compliance status of the facility, currently and over the reporting period consistent with the monitoring and related recordkeeping and reporting requirements of this permit;
   - such other facts as the Department may require to determine the compliance status of the facility as specified in any special permit terms or conditions; and
   - such additional requirements as may be specified elsewhere in this permit related to compliance certification.

ii. The responsible official must include in the annual
certification report all terms and conditions contained in this permit which are identified as being subject to certification, including emission limitations, standards, or work practices. That is, the provisions labeled herein as "Compliance Certification" are not the only provisions of this permit for which an annual certification is required.

iii. Compliance certifications shall be submitted annually. Certification reports are due 30 days after the anniversary date of four consecutive calendar quarters. The first report is due 30 days after the calendar quarter that occurs just prior to the permit anniversary date, unless another quarter has been acceptable by the Department.

iv. All compliance certifications shall be submitted to the Administrator (or his or her representative) as well as two copies to the Department (one copy to the regional air pollution control engineer (RAPCE) in the regional office and one copy to the Bureau of Quality Assurance (BQA) in the DEC central office). Please send annual compliance certifications to Chief of the Stationary Source Compliance Section, the Region 2 EPA representative for the Administrator, at the following address:

USEPA Region 2
Air Compliance Branch
290 Broadway
New York, NY 10007-1866

The address for the RAPCE is as follows:

21 South Putt Corners Road
New Paltz, NY 12561-1696

The address for the BQA is as follows:

NYSDEC
Bureau of Quality Assurance
625 Broadway
Albany, NY 12233-3258

Monitoring Frequency: ANNUALLY
Reporting Requirements: ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
The initial report is due 1/30/2013.
Subsequent reports are due on the same day each year

**Condition 7:** Compliance Certification
Effective between the dates of 10/10/2012 and 10/09/2017
Applicable Federal Requirement: 6 NYCRR 202-2.1

**Item 7.1:**
The Compliance Certification activity will be performed for the Facility.

**Item 7.2:**

Compliance Certification shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

Emission statements shall be submitted on or before April 15th each year for emissions of the previous calendar year. Statements are to be mailed to: New York State Department of Environmental Conservation, Division of Air Resources, Bureau of Air Quality Planning, 625 Broadway, Albany NY 12233-3251

Monitoring Frequency: ANNUALLY
Reporting Requirements: ANNUALLY (CALENDAR)
Reports due by April 15th for previous calendar year

**Condition 8:** Recordkeeping requirements
Effective between the dates of 10/10/2012 and 10/09/2017

Applicable Federal Requirement: 6 NYCRR 202-2.5

**Item 8.1:**

(a) The following records shall be maintained for at least five years:

(1) a copy of each emission statement submitted to the department; and

(2) records indicating how the information submitted in the emission statement was determined, including any calculations, data, measurements, and estimates used.

(b) These records shall be made available at the facility to the representatives of the department upon request during normal business hours.

**Condition 9:** Open Fires - Prohibitions
Effective between the dates of 10/10/2012 and 10/09/2017

Applicable Federal Requirement: 6 NYCRR 215.2

**Item 9.1:**

Except as allowed by Title 6 NYCRR Section 215.3, no person shall burn, cause, suffer, allow or permit the burning of any materials in an open fire.

**Item 9.2**

Per Section 215.3, burning in an open fire, provided it is not contrary to other law or regulation, will be allowed as follows:

(a) On-site burning in any town with a total population less than 20,000 of downed limbs and branches (including branches with attached leaves or needles) less than six inches in diameter and eight feet in length between May 15th and the following March 15th. For the purposes of
this subdivision, the total population of a town shall include the population of any village or portion thereof located within the town. However, this subdivision shall not be construed to allow burning within any village.

(b) Barbecue grills, maple sugar arches and similar outdoor cooking devices when actually used for cooking or processing food.

(c) Small fires used for cooking and camp fires provided that only charcoal or untreated wood is used as fuel and the fire is not left unattended until extinguished.

(d) On-site burning of agricultural wastes as part of a valid agricultural operation on contiguous agricultural lands larger than five acres actively devoted to agricultural or horticultural use, provided such waste is actually grown or generated on those lands and such waste is capable of being fully burned within a 24-hour period.

(e) The use of liquid petroleum fueled smudge pots to prevent frost damage to crops.

(f) Ceremonial or celebratory bonfires where not otherwise prohibited by law, provided that only untreated wood or other agricultural products are used as fuel and the fire is not left unattended until extinguished.

(g) Small fires that are used to dispose of a flag or religious item, and small fires or other smoke producing process where not otherwise prohibited by law that are used in connection with a religious ceremony.

(h) Burning on an emergency basis of explosive or other dangerous or contraband materials by police or other public safety organization.

(i) Prescribed burns performed according to Part 194 of this Title.

(j) Fire training, including firefighting, fire rescue, and fire/arson investigation training, performed under applicable rules and guidelines of the New York State Department of State's Office of Fire Prevention and Control. For fire training performed on acquired structures, the structures must be emptied and stripped of any material that is toxic, hazardous or likely to emit toxic smoke (such as asbestos, asphalt shingles and vinyl siding or other vinyl products) prior to burning and must be at least 300 feet from other occupied structures. No more than one structure per lot or within a 300 foot radius (whichever is bigger) may be burned in a training exercise.

(k) Individual open fires as approved by the Director of the Division of Air Resources as may be required in response to an outbreak of a plant or animal disease upon request by the commissioner of the Department of Agriculture and Markets, or for the destruction of invasive plant and insect species.

(l) Individual open fires that are otherwise authorized under the environmental conservation law, or by rule or regulation of the Department.

**MANDATORY FEDERALLY ENFORCEABLE PERMIT CONDITIONS SUBJECT TO ANNUAL CERTIFICATIONS ONLY IF APPLICABLE**

The following federally enforceable permit conditions are mandatory for all Title V permits and are subject to annual compliance certification requirements only if effectuated during the reporting period.

[NOTE: The corresponding annual compliance certification for those conditions not effectuated during the reporting period shall be specified as "not applicable"].

**Condition 10:** Maintenance of Equipment

Effective between the dates of 10/10/2012 and 10/09/2017

**Applicable Federal Requirement:** 6 NYCRR 200.7
Item 10.1:
Any person who owns or operates an air contamination source which is equipped with an emission control device shall operate such device and keep it in a satisfactory state of maintenance and repair in accordance with ordinary and necessary practices, standards and procedures, inclusive of manufacturer's specifications, required to operate such device effectively.

Condition 11: Recycling and Salvage
Effective between the dates of 10/10/2012 and 10/09/2017
Applicable Federal Requirement: 6 NYCRR 201-1.7

Item 11.1:
Where practical, any person who owns or operates an air contamination source shall recycle or salvage air contaminants collected in an air cleaning device according to the requirements of the ECL.

Condition 12: Prohibition of Reintroduction of Collected Contaminants to the air
Effective between the dates of 10/10/2012 and 10/09/2017
Applicable Federal Requirement: 6 NYCRR 201-1.8

Item 12.1:
No person shall unnecessarily remove, handle or cause to be handled, collected air contaminants from an air cleaning device for recycling, salvage or disposal in a manner that would reintroduce them to the outdoor atmosphere.

Condition 13: Exempt Sources - Proof of Eligibility
Effective between the dates of 10/10/2012 and 10/09/2017
Applicable Federal Requirement: 6 NYCRR 201-3.2 (a)

Item 13.1:
The owner and/or operator of an emission source or unit that is eligible to be exempt may be required to certify that it operates within the specific criteria described in this Subpart. The owner or operator of any such emission source must maintain all required records on-site for a period of five years and make them available to representatives of the department upon request. Department representatives must be granted access to any facility which contains emission sources or units subject to this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other State and Federal air pollution control requirements, regulations, or law.

Condition 14: Trivial Sources - Proof of Eligibility
Effective between the dates of 10/10/2012 and 10/09/2017
Applicable Federal Requirement: 6 NYCRR 201-3.3 (a)

Item 14.1:
The owner and/or operator of an emission source or unit that is listed as being trivial in this Part may be required to certify that it operates within the specific criteria described in this Subpart.
The owner or operator of any such emission source must maintain all required records on-site for a period of five years and make them available to representatives of the department upon request. Department representatives must be granted access to any facility which contains emission sources or units subject to this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other State and Federal air pollution control requirements, regulations, or law.

Condition 15: Standard Requirement - Provide Information
Effective between the dates of 10/10/2012 and 10/09/2017

Applicable Federal Requirement: 6 NYCRR 201-6.5 (a) (4)

Item 15.1:
The owner and/or operator shall furnish to the department, within a reasonable time, any information that the department may request in writing to determine whether cause exists for modifying, revoking and reissuing, or terminating the permit or to determine compliance with the permit. Upon request, the permittee shall also furnish to the department copies of records required to be kept by the permit or, for information claimed to be confidential, the permittee may furnish such records directly to the administrator along with a claim of confidentiality, if the administrator initiated the request for information or otherwise has need of it.

Condition 16: General Condition - Right to Inspect
Effective between the dates of 10/10/2012 and 10/09/2017

Applicable Federal Requirement: 6 NYCRR 201-6.5 (a) (8)

Item 16.1:
The department or an authorized representative shall be allowed upon presentation of credentials and other documents as may be required by law to:

(i) enter upon the permittee’s premises where a facility subject to the permitting requirements of this Subpart is located or emissions-related activity is conducted, or where records must be kept under the conditions of the permit;

(ii) have access to and copy, at reasonable times, any records that must be kept under the conditions of the permit;

(iii) inspect at reasonable times any emission sources, equipment (including monitoring and air pollution control equipment), practices, and operations regulated or required under the permit; and

(iv) sample or monitor at reasonable times substances or parameters for the purpose of assuring compliance with the permit or applicable requirements.

Condition 17: Standard Requirements - Progress Reports
Effective between the dates of 10/10/2012 and 10/09/2017

Applicable Federal Requirement: 6 NYCRR 201-6.5 (d) (5)

Item 17.1:
Progress reports consistent with an applicable schedule of compliance are to be submitted at least semiannually, or at a more frequent period if specified in the applicable requirement or by
the department. Such progress reports shall contain the following:

(i) dates for achieving the activities, milestones, or compliance required in the schedule of compliance, and dates when such activities, milestones or compliance were achieved; and

(ii) an explanation of why any dates in the schedule of compliance were not or will not be met, and any preventive or corrective measures adopted.

**Condition 18: Off Permit Changes**
**Effective between the dates of 10/10/2012 and 10/09/2017**

**Applicable Federal Requirement:** 6 NYCRR 201-6.5 (f) (6)

**Item 18.1:**
No permit revision will be required for operating changes that contravene an express permit term, provided that such changes would not violate applicable requirements as defined under this Part or contravene federally enforceable monitoring (including test methods), recordkeeping, reporting, or compliance certification permit terms and conditions. Such changes may be made without requiring a permit revision, if the changes are not modifications under any provision of title I of the act and the changes do not exceed the emissions allowable under the permit (whether expressed therein as a rate of emissions or in terms of total emissions) provided that the facility provides the administrator and the department with written notification as required below in advance of the proposed changes within a minimum of seven days. The facility owner or operator, and the department shall attach each such notice to their copy of the relevant permit.

(i) For each such change, the written notification required above shall include a brief description of the change within the permitted facility, the date on which the change will occur, any change in emissions, and any permit term or condition that is no longer applicable as a result of the change.

(ii) The permit shield described in section 6 NYCRR 201-6.6 shall not apply to any change made pursuant to this paragraph.

**Condition 19: Required Emissions Tests**
**Effective between the dates of 10/10/2012 and 10/09/2017**

**Applicable Federal Requirement:** 6 NYCRR 202-1.1

**Item 19.1:**
For the purpose of ascertaining compliance or non-compliance with any air pollution control code, rule or regulation, the commissioner may require the person who owns such air contamination source to submit an acceptable report of measured emissions within a stated time.

**Condition 20: Accidental release provisions.**
**Effective between the dates of 10/10/2012 and 10/09/2017**

**Applicable Federal Requirement:** 40 CFR Part 68

**Item 20.1:**
If a chemical is listed in Tables 1,2,3 or 4 of 40 CFR §68.130 is present in a process in quantities
greater than the threshold quantity listed in Tables 1,2,3 or 4, the following requirements will apply:

a) The owner or operator shall comply with the provisions of 40 CFR Part 68 and;

b) The owner or operator shall submit at the time of permit issuance (if not previously submitted) one of the following, if such quantities are present:

1) A compliance schedule for meeting the requirements of 40 CFR Part 68 by the date provided in 40 CFR §68.10(a) or,

2) A certification statement that the source is in compliance with all requirements of 40 CFR Part 68, including the registration and submission of the Risk Management Plan. Information should be submitted to:

Risk Management Plan Reporting Center
C/O CSC
8400 Corporate Dr
Carrollton, Md.  20785

Condition 21: Recycling and Emissions Reduction
Effective between the dates of 10/10/2012 and 10/09/2017
Applicable Federal Requirement: 40 CFR 82, Subpart F

Item 21.1:
The permittee shall comply with all applicable provisions of 40 CFR Part 82.

The following conditions are subject to annual compliance certification requirements for Title V permits only.

Condition 22: Emission Unit Definition
Effective between the dates of 10/10/2012 and 10/09/2017
Applicable Federal Requirement: 6 NYCRR Subpart 201-6

Item 22.1:
The facility is authorized to perform regulated processes under this permit for:
   Emission Unit: E-U0003
   Emission Unit Description:
   Selas screw furnace (exempt) with product collector (EP034).
   Building(s): BLDG 004B

Item 22.2:
The facility is authorized to perform regulated processes under this permit for:
   Emission Unit: E-U0006
Emission Unit Description:
Wyssmont 3 Tray Dryer (exempt), scrubber (EP038).

Building(s): BLDG 004B

Item 22.3:
The facility is authorized to perform regulated processes under this permit for:
Emission Unit: E-U0007
Emission Unit Description:
Wyssmont 4 Tray Dryer (exempt), scrubber (EP047), product collector (EP048), Eimco 6 vacuum filter

Building(s): BLDG 010B

Item 22.4:
The facility is authorized to perform regulated processes under this permit for:
Emission Unit: E-U0008
Emission Unit Description:
Wyssmont 5 Tray Dryer (exempt), scrubber (EP053), product collector (EP054), Fest 4 vacuum filter.

Building(s): BLDG 010A

Item 22.5:
The facility is authorized to perform regulated processes under this permit for:
Emission Unit: E-U0009
Emission Unit Description:
Wyssmont 6 Tray Dryer (exempt), scrubber (EP065), product collector (EP064), straight line 2 vacuum filter.

Building(s): BLDG 029

Item 22.6:
The facility is authorized to perform regulated processes under this permit for:
Emission Unit: E-U0010
Emission Unit Description:
Wyssmont 7 Tray Dryer (exempt), scrubber (EP067), product collector (EP068), Fest 2 vacuum filter, Eimco 10 vacuum filter.

Building(s): BLDG 029

Item 22.7:
The facility is authorized to perform regulated processes under this permit for:
Emission Unit: E-U0011
Emission Unit Description:
Item 22.8:
The facility is authorized to perform regulated processes under this permit for:
   Emission Unit: E-U0012
   Emission Unit Description:

Building(s): BLDG 004B

Item 22.9:
The facility is authorized to perform regulated processes under this permit for:
   Emission Unit: E-U0013
   Emission Unit Description:

Building(s): BLDG 009

Item 22.10:
The facility is authorized to perform regulated processes under this permit for:
   Emission Unit: E-U0014
   Emission Unit Description:

Building(s): BLDG 010A

Item 22.11:
The facility is authorized to perform regulated processes under this permit for:
   Emission Unit: E-U0015
   Emission Unit Description:
   Unique 2 belt furnace (exempt), sweep gas from process furnace (EP062), product collector (EP063), Eimco 9 vacuum filter.

Building(s): BLDG 029

Item 22.12:
The facility is authorized to perform regulated processes under this permit for:
   Emission Unit: E-U0016
   Emission Unit Description:

Building(s): BLDG 029
Item 22.13:
The facility is authorized to perform regulated processes under this permit for:
Emission Unit: E-U0017
Emission Unit Description:

Building(s): BLDG 029

Item 22.14:
The facility is authorized to perform regulated processes under this permit for:
Emission Unit: E-U0019
Emission Unit Description:

Building(s): BLDG 027

Item 22.15:
The facility is authorized to perform regulated processes under this permit for:
Emission Unit: E-U001A
Emission Unit Description:
12.5 MMBTU/hr Cleaver Brooks Boiler (boiler #3) and 12.6 MMBTU/hr North American Boiler (boiler #2). Each boiler is equipped with low-NOx burner.

Building(s): BLDG 4A

Item 22.16:
The facility is authorized to perform regulated processes under this permit for:
Emission Unit: E-U001B
Emission Unit Description:
One 25.1 MMBTU/hr, Cleaver Brooks Boiler (boiler #1) operating on natural gas and equipped with Low-NOx burner.

Building(s): BLDG 22

Item 22.17:
The facility is authorized to perform regulated processes under this permit for:
Emission Unit: E-U0021
Emission Unit Description:
Scrubber (EP025).

Building(s): BLDG 004

Item 22.18:
The facility is authorized to perform regulated processes under this permit for:
Emission Unit: E-U0022
Item 22.19:
The facility is authorized to perform regulated processes under this permit for:
Emission Unit: E-U0023
Emission Unit Description: Scrubber for pilot plant (EP066).

Building(s): BLDG 029

Item 22.20:
The facility is authorized to perform regulated processes under this permit for:
Emission Unit: E-U0024
Emission Unit Description: Scrubber with 2 towers (EP071).

Building(s): BLDG 029

Item 22.21:
The facility is authorized to perform regulated processes under this permit for:
Emission Unit: E-U0025
Emission Unit Description: Vent to atmosphere for Mearlite mixing tanks (EP005).

Building(s): BLDG 003

Item 22.22:
The facility is authorized to perform regulated processes under this permit for:
Emission Unit: E-U0027
Emission Unit Description: Vent to atmosphere (EP058).

Building(s): BLDG 007

Item 22.23:
The facility is authorized to perform regulated processes under this permit for:
Emission Unit: E-U0028
Emission Unit Description: Bowen spray dryer (exempt), product collector (EP008).

Building(s): BLDG 003

Item 22.24:
The facility is authorized to perform regulated processes under this permit for:
Emission Unit: E-U0030
Emission Unit Description:
Bismuth Nitrate Solution Storage Tank (BNTA3)  
Building(s): BLDG 004

**Item 22.25:**  
The facility is authorized to perform regulated processes under this permit for:  
Emission Unit: E-U0033  
Emission Unit Description:  
Dust collector (EP060).  
Building(s): BLDG 009

**Item 22.26:**  
The facility is authorized to perform regulated processes under this permit for:  
Emission Unit: E-U0034  
Emission Unit Description:  
Building(s): BLDG 30

**Item 22.27:**  
The facility is authorized to perform regulated processes under this permit for:  
Emission Unit: E-U0035  
Emission Unit Description:  
Product collector for cyclone air classifier (EP043).  
Building(s): BLDG 010

**Item 22.28:**  
The facility is authorized to perform regulated processes under this permit for:  
Emission Unit: E-U0037  
Emission Unit Description:  
Gas-fired Therma-Jet Product Dryer Equipped with a Two Stage Product Collection System  
Building(s): BLDG 04D

**Item 22.29:**  
The facility is authorized to perform regulated processes under this permit for:  
Emission Unit: E-U0039  
Emission Unit Description:  
Gas-fired Grieve Oven Product Dryer  
Building(s): BLDG 04D

**Condition 23:**  
Air pollution prohibited  
Effective between the dates of 10/10/2012 and 10/09/2017
Applicable Federal Requirement: 6 NYCRR 211.1

Item 23.1:
No person shall cause or allow emissions of air contaminants to the outdoor atmosphere of such quantity, characteristic or duration which are injurious to human, plant or animal life or to property, or which unreasonably interfere with the comfortable enjoyment of life or property. Notwithstanding the existence of specific air quality standards or emission limits, this prohibition applies, but is not limited to, any particulate, fume, gas, mist, odor, smoke, vapor, pollen, toxic or deleterious emission, either alone or in combination with others.

Condition 24:  Compliance Certification
Effective between the dates of 10/10/2012 and 10/09/2017

Applicable Federal Requirement: 6 NYCRR 212.4 (c)

Item 24.1:
The Compliance Certification activity will be performed for the facility: The Compliance Certification applies to:

- Emission Unit: E-U0003 Emission Point: EP03
- Emission Unit: E-U0006 Emission Point: EP06
- Emission Unit: E-U0007 Emission Point: EP07
- Emission Unit: E-U0007 Emission Point: EP08
- Emission Unit: E-U0008 Emission Point: EP09
- Emission Unit: E-U0009 Emission Point: EP09
- Emission Unit: E-U0009 Emission Point: EP09
- Emission Unit: E-U0010 Emission Point: EP09
- Emission Unit: E-U0010 Emission Point: EP09
- Emission Unit: E-U0010 Emission Point: EP09
- Emission Unit: E-U0010 Emission Point: EP09
Emission Unit: E-U0010  
Process: P10  
Emission Point: EP119

Emission Unit: E-U0011  
Process: P11

Emission Unit: E-U0037
Emission Point: EP113

Process: P39
Emission Unit: E-U0039
Emission Point: EP115

Item 24.2:
Compliance Certification shall include the following monitoring:

Monitoring Type: MONITORING OF PROCESS OR CONTROL DEVICE PARAMETERS AS SURROGATE

Monitoring Description:
Emissions of solid particulates are limited to less than 0.050 grains of particulates per cubic foot of exhaust
gas, expressed at standard conditions on a dry gas basis.

If this condition appears in a Title V permit, and the Department has not otherwise directed the permittee to conduct a stack test, compliance with the 0.050 grains/dscf particulate emission standard will be determined by the permittee's observation of the outlet of the emission source to determine whether or not visible emissions are present following the guidelines similar to EPA Method 22. Visible emissions will not include those due to water vapor that is present in the exhaust gas. Observations must be made once per day while operations are taking place. These observations must be recorded in a log book, and be made available to the Department on request. If visible emissions are observed for two consecutive days, a Method 9 visible emissions test must be conducted by a certified observer. If the Method 9 test determines that the opacity is less than 20%, observations of the stack in question shall be used to determine that the opacity of these emissions remain less than 20%.

The semiannual progress report and annual compliance certifications required of all permittees subject to Title V must include a summary of these observations as well an instances in which visible emissions were observed or in which observations could not be made due to weather conditions.

Parameter Monitored: OPACITY
Upper Permit Limit: 20 percent
Monitoring Frequency: DAILY
Averaging Method: 6-MINUTE AVERAGE (METHOD 22)
Reporting Requirements: SEMI-ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
The initial report is due 1/30/2013.
Subsequent reports are due every 6 calendar month(s).

Condition 25: Compliance Certification
Effective between the dates of 10/10/2012 and 10/09/2017

Applicable Federal Requirement:6 NYCRR 212.11

Item 25.1: The Compliance Certification activity will be performed for the Facility.

Regulated Contaminant(s):
CAS No: 0NY075-00-0 PARTICULATES

Item 25.2: Compliance Certification shall include the following monitoring:
Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES
Monitoring Description:
The facility owner/operator shall operate and maintain control equipment (fabric filter) in accordance with manufacturer's operating procedures, instructions and requirements. A copy of the manufacturer’s operating procedures, instructions and requirements shall be maintained with the permit for this facility at all times and shall be retained for a period of not less than five (5) years. The facility owner/operator will inspect the control equipment daily and maintain a log and/or record indicating operating performance, maintenance activities including repairs and/or corrective action taken. The log and/or records are to be maintained on-site for a period of five years.

Monitoring Frequency: DAILY
Reporting Requirements: SEMI-ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
The initial report is due 1/30/2013.
Subsequent reports are due every 6 calendar month(s).

Condition 26: Compliance Certification
Effective between the dates of 10/10/2012 and 10/09/2017

Applicable Federal Requirement: 40CFR 63, Subpart VVVVV

Item 26.1:
The Compliance Certification activity will be performed for the Facility.

Regulated Contaminant(s):
CAS No: 0NY510-00-0  40 CFR 63 - TOTAL METAL HAP

Item 26.2:
Compliance Certification shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES
Monitoring Description:
Facility subject to 40 CFR 63 Subpart VVVVVV( National Emission Standards for Hazardous Air Pollutants: Area Source Standards for Chemical Manufacturing) must comply with applicable portions of the Subpart.

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION
Reporting Requirements: SEMI-ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
The initial report is due 1/30/2013.
Subsequent reports are due every 6 calendar month(s).

Condition 27: Compliance Certification
Effective between the dates of 10/10/2012 and 10/09/2017

Applicable Federal Requirement: 40CFR 63.11496(f), Subpart VVVVVV

Item 27.1:
The Compliance Certification activity will be performed for the Facility.

Regulated Contaminant(s):
CAS No: 0NY510-00-0  40 CFR 63 - TOTAL METAL HAP

Item 27.2:
Compliance Certification shall include the following monitoring:

Monitoring Type: INTERMITTENT EMISSION TESTING
Monitoring Description:
The owner or operator of a chemical manufacturing process
unit from which collective uncontrolled metal HAP
emissions from all metal HAP process vents are equal to or
greater than 400 lb/yr must reduce collective uncontrolled
emissions of total metal HAP emissions by \( \geq 95 \) percent by
weight by routing emissions from a sufficient number of
the metal process vents through a closed-vent system to
any combination of control devices, according to the
requirements of 40 CFR 63.11496(f)(3), (4), or (5).

Lower Permit Limit: 95 percent by weight
Monitoring Frequency: SINGLE OCCURRENCE
Averaging Method: AVERAGING METHOD - SEE MONITORING
DESCRIPTION
Reporting Requirements: AS REQUIRED - SEE MONITORING DESCRIPTION

**** Emission Unit Level ****

Condition 28: Emission Point Definition By Emission Unit
Effective between the dates of 10/10/2012 and 10/09/2017

Applicable Federal Requirement: 6 NYCRR Subpart 201-6

Item 28.1:
The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: E-U0003
Emission Point: EP034
Height (ft.): 36
Diameter (in.): 8
NYTMN (km.): 4570.2
NYTME (km.): 589.2
Building: BLDG 004B

Item 28.2:
The following emission points are included in this permit for the cited Emission Unit:
Item 28.3:
The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: E-U0007
Emission Point: EP047
Height (ft.): 59  Diameter (in.): 18
NYTMN (km.): 4570.2  NYTME (km.): 589.2  Building: BLDG 010B

Emission Point: EP048
Height (ft.): 55  Diameter (in.): 10
NYTMN (km.): 4570.2  NYTME (km.): 589.2  Building: BLDG 010B

Item 28.4:
The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: E-U0008
Emission Point: EP053
Height (ft.): 35  Diameter (in.): 12
NYTMN (km.): 4570.2  NYTME (km.): 589.2  Building: BLDG 010A

Emission Point: EP054
Height (ft.): 33  Diameter (in.): 8
NYTMN (km.): 4570.2  NYTME (km.): 589.2  Building: BLDG 010A

Item 28.5:
The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: E-U0009
Emission Point: EP064
Height (ft.): 32  Diameter (in.): 8
NYTMN (km.): 4570.2  NYTME (km.): 589.2  Building: BLDG 029

Emission Point: EP065

**Emission Point: EP075**
- Height (ft.): 26
- Diameter (in.): 12
- NYTMN (km.): 4570.2
- NYTME (km.): 589.2
- Building: BLDG 027

**Item 28.15:**
The following emission points are included in this permit for the cited Emission Unit:

**Emission Unit: E-U001A**

**Emission Point: EP001**
Item 28.16:
The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: E-U001B

Emission Point: EP076
Height (ft.): 42 Diameter (in.): 30
NYTMN (km.): 4570.2 NYTME (km.): 589.2 Building: BLDG 22

Item 28.17:
The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: E-U0021

Emission Point: EP025
Height (ft.): 46 Diameter (in.): 18
NYTMN (km.): 4570.2 NYTME (km.): 589.2 Building: BLDG 004

Item 28.18:
The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: E-U0022

Emission Point: EP039
Height (ft.): 36 Diameter (in.): 30
NYTMN (km.): 4570.2 NYTME (km.): 589.2 Building: BLDG 009

Item 28.19:
The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: E-U0023

Emission Point: EP066
Height (ft.): 33 Diameter (in.): 18
NYTMN (km.): 4570.2 NYTME (km.): 589.2 Building: BLDG 029

Item 28.20:
The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: E-U0024

Emission Point: EP071
Height (ft.): 40 Diameter (in.): 36
NYTMN (km.): 4570.2 NYTME (km.): 589.2 Building: BLDG 029

Item 28.21:
The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: E-U0025
Air Pollution Control Permit Conditions

Item 28.22:
The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: E-U0027

Emission Point: EP058
Height (ft.): 21  Diameter (in.): 3
NYTMN (km.): 4570.2  NYTME (km.): 589.2  Building: BLDG 007

Item 28.23:
The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: E-U0028

Emission Point: EP008
Height (ft.): 27  Diameter (in.): 20
NYTMN (km.): 4570.2  NYTME (km.): 589.2  Building: BLDG 003

Item 28.24:
The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: E-U0030

Emission Point: EP112
Height (ft.): 20  Diameter (in.): 6
NYTMN (km.): 4570.2  NYTME (km.): 589.2  Building: BLDG 004

Item 28.25:
The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: E-U0033

Emission Point: EP060
Height (ft.): 20  Diameter (in.): 8
NYTMN (km.): 4570.2  NYTME (km.): 589.2  Building: BLDG 009

Item 28.26:
The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: E-U0034

Emission Point: EP107
Height (ft.): 57  Length (in.): 17  Width (in.): 12
NYTMN (km.): 4570.2  NYTME (km.): 589.2  Building: BLDG 30

Emission Point: EP111
Height (ft.): 42  Diameter (in.): 6
Item 28.27:
The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: E-U0035

Emission Point: EP043
   Height (ft.): 40
   Diameter (in.): 20
   NYTMN (km.): 4570.2
   NYTME (km.): 589.2
   Building: BLDG 010

Item 28.28:
The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: E-U0037

Emission Point: EP113
   Height (ft.): 32
   Diameter (in.): 12
   NYTMN (km.): 4570.2
   NYTME (km.): 589.2
   Building: BLDG 04D

Item 28.29:
The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: E-U0039

Emission Point: EP115
   Height (ft.): 41
   Diameter (in.): 9
   NYTMN (km.): 4570.2
   NYTME (km.): 589.2
   Building: BLDG 04D

Condition 29: Process Definition By Emission Unit
   Effective between the dates of 10/10/2012 and 10/09/2017

   Applicable Federal Requirement: 6 NYCRR Subpart 201-6

Item 29.1:
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: E-U0003
Process: P03
Source Classification Code: 3-01-035-01

Process Description:
A 6.24 MMBTU/hr gas fired Selas screw furnace that is used to produce slurry into classified coated products (sulfates or chlorides). The slurry is typically received from the Wyssmont 3 tray dryer (process p06). The product is transferred from the calciner through an air classifier and a product collector that feeds the product into tote bins; the product fines generated through the conveying process are captured in/discharged by the product collector to the atmosphere. The process gases are routed through one of two venturi rod scrubbers.
Item 29.2:
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit:  E-U0006  
Process: P06  
Source Classification Code: 3-01-900-04  
Process Description:
An Eimco 3 vacuum filter that feeds process slurry into a 3.0 MMBTU/hr natural gas fired Wyssmont 3 tray dryer. The slurry is then dried in the dryer and transferred directly into the Selas screw furnace (process p02). The process gases are routed through a venturi rod scrubber.

Item 29.3:
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit:  E-U0007  
Process: P07  
Source Classification Code: 3-01-900-04  
Process Description:
An EIMCO 6 Vacuum Filter that feeds process slurry into a 3.0 MMBTU/hr natural gas-fired Wyssmont 4 Tray Dryer. The slurry is then dried in the dryer and transferred into tote bins; the product fines generated through the conveying process are captured in a product collector. The process gases are routed through a venturi rod scrubber.

Emission Source/Control:  ES03A - Control  
Control Type: WET SCRUBBER  
Emission Source/Control:  ES03B - Control  
Control Type: WET SCRUBBER

Emission Source/Control:  ES07A - Control  
Control Type: WET SCRUBBER  
Emission Source/Control:  ES07B - Control  
Control Type: FABRIC FILTER
Item 29.4:
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: E-U0008
Process: P08 Source Classification Code: 3-01-900-04
Process Description:
A FEST 4 Vacuum Filter that feeds process slurry into a
1.0 MMBTU/hr natural gas-fired Wyssmont 4 Tray Dryer. The slurry is then dried in the dryer and transferred into
tote bins; the product fines generated through the conveying process are captured in a product collector.
The process gases are routed through a venturi rod scrubber.

Emission Source/Control: ES08A - Control
Control Type: WET SCRUBBER

Emission Source/Control: ES08B - Control
Control Type: FABRIC FILTER

Emission Source/Control: ES08P - Process

Item 29.5:
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: E-U0009
Process: P09 Source Classification Code: 3-01-900-04
Process Description:
A straight line 2 vacuum filter that feeds process slurry
into an 0.8 MMBTU/hr natural gas fired Wyssmont 6 tray dryer. The slurry is then dried in the dryer and transferred into tote bins; the product fines generated through the conveying process are captured in a product collector. The process gases are routed through a venturi rod scrubber.

Emission Source/Control: ES09A - Control
Control Type: WET SCRUBBER

Emission Source/Control: ES09B - Control
Control Type: FABRIC FILTER

Emission Source/Control: ES09P - Process

Item 29.6:
This permit authorizes the following regulated processes for the cited Emission Unit:
Emission Unit:    E-U0010  
Process: P10       Source Classification Code: 3-01-900-04  
Process Description:  
A FEST 2 vacuum filter and an Eimco 10 vacuum filter that  
feed process slurry into a 1.2 MMBTU/hr natural gas fired  
Wyssmont 7 tray dryer. The slurry is then dried in the  
dryer and transferred into tote bins; the product fines  
generated through the conveying process are captured in a  
product collector. The process gases are routed through a  
venturi rod scrubber.

Emission Source/Control:   ES10A - Control  
Control Type: WET SCRUBBER

Emission Source/Control:   ES10B - Control  
Control Type: FABRIC FILTER

Emission Source/Control:   ES10C - Control  
Control Type: FABRIC FILTER

Emission Source/Control:   ES10P - Process

**Item 29.7:**
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit:    E-U0011  
Process: P11       Source Classification Code: 3-01-900-04  
Process Description:  
An Eimco 1 vacuum filter that feeds process slurry into a  
11.31 MMBTU/hr natural gas fired Drever I belt furnace.  
The slurry is then processed in the furnace and  
transferred into tote bins; the product fines generated  
through the conveying process are captured in product  
collector(s). The sweep gas from the process furnace  
discharges directly to the atmosphere.

Emission Source/Control:   ES11D - Combustion

Emission Source/Control:   ES11A - Control  
Control Type: FABRIC FILTER

Emission Source/Control:   ES11B - Control  
Control Type: FABRIC FILTER

Emission Source/Control:   ES11C - Process

**Item 29.8:**
This permit authorizes the following regulated processes for the cited Emission Unit:
Emission Unit: E-U0012  
Process: P12  
Source Classification Code: 3-01-900-04  

Process Description:
An Eimco 4 vacuum filter that feeds process slurry into an 8.5 MMBTU/hr natural gas fired Drever II belt furnace. The slurry is then processed in the furnace and transferred into tote bins; the product fines generated through the conveying process are captured in product collector(s). The sweep gas from the process furnace discharges directly to the atmosphere.

Emission Source/Control: ES12A - Control  
Control Type: FABRIC FILTER

Emission Source/Control: ES12B - Control  
Control Type: FABRIC FILTER

Emission Source/Control: ES12C - Process

Item 29.9:
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: E-U0013  
Process: P13  
Source Classification Code: 3-01-900-04  

Process Description:
An Eimco 5 vacuum filter that feeds process slurry into an 11.31 MMBTU/hr natural gas fired Drever III belt furnace. The slurry is then processed in the furnace and transferred into tote bins; the product fines generated through the conveying process are captured in product collector(s). The sweep gas from the process furnace discharges directly to the atmosphere.

Emission Source/Control: ES13D - Combustion

Emission Source/Control: ES13A - Control  
Control Type: FABRIC FILTER

Emission Source/Control: ES13B - Control  
Control Type: FABRIC FILTER

Emission Source/Control: ES13C - Process

Item 29.10:
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: E-U0014  
Process: P14  
Source Classification Code: 3-01-900-04  

Process Description:
An Eimco 7 vacuum filter that feeds process slurry into a 12.0 MMBTU/hr natural gas fired Unique 1 belt furnace. The slurry is then processed in the furnace and transferred into tote bins; the product fines generated through the conveying process are captured in product collector(s). The sweep gas from the process furnace discharges directly to the atmosphere.

Emission Source/Control: ES14A - Combustion
Emission Source/Control: ES14B - Control
Control Type: FABRIC FILTER
Emission Source/Control: ES14C - Control
Control Type: FABRIC FILTER
Emission Source/Control: ES14D - Process

Item 29.11:
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: E-U0015
Process: P15
Source Classification Code: 3-01-900-04
Process Description:
An Eimco 9 vacuum filter that feeds process slurry into a 7.0 MMBTU/hr natural gas fired Unique 2 belt furnace (for the pilot plant). The slurry is then processed in the furnace and transferred into tote bins; the product fines generated through the conveying process are captured in a product collector. The sweep gas from the process furnace discharges directly to the atmosphere.

Emission Source/Control: ES15A - Control
Control Type: FABRIC FILTER
Emission Source/Control: ES15B - Process

Item 29.12:
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: E-U0016
Process: P16
Source Classification Code: 3-01-900-04
Process Description:
An Eimco 11 vacuum filter that feeds process slurry into a 12.0 MMBTU/hr natural gas fired Unique 3 belt furnace. The slurry is then processed in the furnace and transferred into tote bins; the product fines generated through the conveying process are captured in product collector.
collector(s). The sweep gas from the process furnace discharges directly to the atmosphere.

Emission Source/Control: ES16A - Combustion

Emission Source/Control: ES16B - Control
Control Type: FABRIC FILTER

Emission Source/Control: ES16C - Control
Control Type: FABRIC FILTER

Emission Source/Control: ES16D - Process

**Item 29.13:**
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: E-U0017
Process: P17  
Source Classification Code: 3-01-900-04

Process Description:
An Eimco 12 vacuum filter that feeds process slurry into a 12.0 MMBTU/hr natural gas fired Unique 4 belt furnace. The slurry is then processed in the furnace and transferred into tote bins; the product fines generated through the conveying process are captured in product collector(s). The sweep gas from the process furnace discharges directly to the atmosphere.

Emission Source/Control: ES17A - Combustion

Emission Source/Control: ES17B - Control
Control Type: FABRIC FILTER

Emission Source/Control: ES17C - Control
Control Type: FABRIC FILTER

Emission Source/Control: ES17D - Process

**Item 29.14:**
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: E-U0019  
Process: P19  
Source Classification Code: 3-01-035-53

Process Description:
A Eimco 13 vacuum filter that feeds process slurry into a steam heated Krauss Maffei tray dryer. The slurry is then dried in the dryer and transferred into tote bins; the product fines generated through the conveying process are captured in a product collector. The process gases are
routed through a venturi scrubber.

Emission Source/Control: ES19A - Control
Control Type: WET SCRUBBER

Emission Source/Control: ES19B - Control
Control Type: FABRIC FILTER

Emission Source/Control: ES19P - Process

**Item 29.15:**
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: E-U001A
Process: P1A  
Source Classification Code: 1-02-006-02
Process Description:
Two natural gas fired boilers (i.e., a 12.55 MMBTU/hr cleaver brooks, and 12.6 MMBTU/hr North American) that are used to produce steam for the Peekskill plant.

Emission Source/Control: ES01A - Combustion
Design Capacity: 12.6 million Btu per hour

Emission Source/Control: ES01B - Combustion
Design Capacity: 12.5 million Btu per hour

**Item 29.16:**
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: E-U001B
Process: P1B  
Source Classification Code: 1-02-006-02
Process Description:
One natural gas fired boiler (i.e., a 25.11 MMBTU/hr Cleaver Brooks) that is used to produce steam for the Peekskill plant.

Emission Source/Control: ES01C - Combustion
Design Capacity: 25 million Btu per hour

**Item 29.17:**
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: E-U0021  
Process: P21  
Source Classification Code: 3-01-035-54
Process Description:
The venting of storage tanks and process vessels through a packed tower caustic scrubber that is used to control
Item 29.18:
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: E-U0022  
Process: P22  
Source Classification Code: 3-01-035-54

Process Description:
The venting of storage tanks and process vessels through a packed tower caustic scrubber that is used to control HCL fumes.

Emission Source/Control: ES21A - Control  
Control Type: WET SCRUBBER

Emission Source/Control: ES21P - Process

Item 29.19:
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: E-U0023  
Process: P23  
Source Classification Code: 3-01-035-54

Process Description:
The venting of storage tanks and reactor exhaust streams - associated with the pilot plant - through a packed tower caustic scrubber that is used to control HCL fumes.

Emission Source/Control: ES22A - Control  
Control Type: WET SCRUBBER

Emission Source/Control: ES22B - Control  
Control Type: WET SCRUBBER

Emission Source/Control: ES22P - Process

Item 29.20:
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: E-U0024  
Process: P24  
Source Classification Code: 3-01-035-54

Process Description:
The venting of storage tanks and process vessels through packed tower caustic scrubbers that are used to control HCL fumes.
Emission Source/Control: ES24A - Control
Control Type: WET SCRUBBER

Emission Source/Control: ES24B - Control
Control Type: WET SCRUBBER

Emission Source/Control: ES24P - Process

**Item 29.21:**
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: E-U0025
Process: P25 Source Classification Code: 3-01-014-01
Process Description:
A vent to the atmosphere for five Mearlite mixing tanks
(i.e., a dump tank, a bismuth solution tank, a bismuth solution make up tank, a feed tank, and a wash tank).

Emission Source/Control: ES25A - Process
Emission Source/Control: ES25B - Process
Emission Source/Control: ES25C - Process
Emission Source/Control: ES25D - Process
Emission Source/Control: ES25E - Process

**Item 29.22:**
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: E-U0027
Process: P27 Source Classification Code: 3-01-011-98
Process Description:
A vent to the atmosphere for a 3,000 gallon HCL storage tank (i.e. tank No. HHCL2).

Emission Source/Control: ES27A - Process

**Item 29.23:**
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: E-U0028
Process: P28 Source Classification Code: 3-01-900-04
Process Description:
A 1.9 MMBTU/hr natural gas fired Bowen spray dryer that
is used for the drying of pigments from water suspensions. The process slurry is processed in the dryer and transferred into the bins; the product fines generated through the conveying process are captured in a product collector.

Emission Source/Control: ES28A - Control
Control Type: FABRIC FILTER

Emission Source/Control: ES28P - Process

Item 29.24:
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: E-U0030
Process: P30 Source Classification Code: 3-01-035-54
Process Description: Vent from Bismuth Nitrate Solution Storage Tank (BNTA3).

Emission Source/Control: ES30A - Process

Emission Source/Control: ES33A - Control
Control Type: FABRIC FILTER

Emission Source/Control: ES33P - Process

Item 29.25:
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: E-U0033
Process: P33 Source Classification Code: 3-01-035-54
Process Description: A mix tank, which is used for the dumping of off-spec product, that is equipped with a dust collector used to collect product fines.

Emission Source/Control: ES33A - Control
Control Type: FABRIC FILTER

Emission Source/Control: ES33P - Process

Item 29.26:
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: E-U0034
Process: P34 Source Classification Code: 3-01-035-54
Process Description: A product collector that is used to control emissions generated during the unloading of hydrated lime from a bulk trailer to the outside storage tank. The product collector discharges to an enclosure at the top of the lime silo that is not completely sealed. A previously
permitted scrubber, which is not in service, that acts as an emission point when material is being transferred to the lime slurry tank.

Emission Source/Control: ES34A - Control
Control Type: FABRIC FILTER

Emission Source/Control: ES34B - Control
Control Type: SINGLE CYCLONE

Emission Source/Control: ES34P - Process

Item 29.27:
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: E-U0035
Process: P35   Source Classification Code: 3-01-035-54
Process Description: A product collector for a cyclone air classifier that separates out the finer mica.

Emission Source/Control: ES35A - Control
Control Type: FABRIC FILTER

Emission Source/Control: ES35P - Process

Item 29.28:
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: E-U0037
Process: P37   Source Classification Code: 3-01-035-53
Process Description: Gas-fired Terma-Jet Product Dryer Equipped with a Two-Stage Product Collection System.

Emission Source/Control: ES37A - Control
Control Type: FABRIC FILTER

Emission Source/Control: ES37P - Process

Item 29.29:
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: E-U0039
Process: P39   Source Classification Code: 3-01-035-53
Process Description: Gas-Fired Grieve Oven Product Dryer

Emission Source/Control: ES39A - Process
Condition 34: Compliance Certification  
Effective between the dates of 10/10/2012 and 10/09/2017  
Applicable Federal Requirement: 6 NYCRR 227-2.4 (d)

Item 34.1:  
The Compliance Certification activity will be performed for the facility:  
The Compliance Certification applies to:

- Emission Unit: E-U0019  
  Process: P19  
  Emission Source: ES19A

- Emission Unit: E-U0019  
  Process: P19  
  Emission Source: ES19B

Regulated Contaminant(s):  
CAS No: 0NY210-00-0  
OXIDES OF NITROGEN

Item 34.2:  
Compliance Certification shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES  
Monitoring Description:
  The owner or operator of a small boiler, small combustion turbine, or small internal combustion engine must perform an annual tune-up of their equipment. This tune-up should be performed in accordance with the requirements of the DAR-5 guidance document. Records of each tune-up must be kept on-site for a minimum of five years.

Monitoring Frequency: ANNUALLY  
Reporting Requirements: ANNUALLY (CALENDAR)  
Reports due 30 days after the reporting period.  
The initial report is due 1/30/2013.  
Subsequent reports are due every 12 calendar month(s).

Condition 30: Compliance Certification  
Effective between the dates of 10/10/2012 and 10/09/2017  
Applicable Federal Requirement: 6 NYCRR 227-1.3 (a)

Item 30.1:  
The Compliance Certification activity will be performed for the facility:  
The Compliance Certification applies to:

- Emission Unit: E-U001A  
  Emission Point: EP001  
  Emission Source: ES01A

- Emission Unit: E-U001A  
  Emission Point: EP001  
  Emission Source: ES01B

- Emission Unit: E-U001B  
  Emission Point: EP076
Item 30.2:
Compliance Certification shall include the following monitoring:

Monitoring Type: MONITORING OF PROCESS OR CONTROL DEVICE PARAMETERS AS SURROGATE

Monitoring Description:
No person shall operate a stationary combustion installation which exhibits greater than 20 percent opacity (six minute average), except for one-six-minute period per hour of not more than 27 percent opacity. The Department reserves the right to perform or require the performance of a Method 9 opacity evaluation at any time during facility operation.

The permittee will conduct observations of visible emissions from the emission unit, process, etc. to which this condition applies at the monitoring frequency stated below while the process is in operation. The permittee will investigate, in a timely manner, any instance where there is cause to believe that visible emissions have the potential to exceed the opacity standard.

The permittee shall investigate the cause, make any necessary corrections, and verify that the excess visible emissions problem has been corrected. If visible emissions with the potential to exceed the standard continue, the permittee will conduct a Method 9 assessment within the next operating day of the sources associated with the potential noncompliance to determine the degree of opacity and will notify the NYSDEC if the method 9 test indicates that the opacity standard is not met.

Records of visible emissions observations (or any follow-up method 9 tests), investigations and corrective actions will be kept on-site. Should the Department determine that permittee's record keeping format is inadequate to demonstrate compliance with this condition, it shall provide written notice to the permittee stating the inadequacies, and permittee shall have 90 days to revise its prospective record keeping format in a manner acceptable to the Department.

Parameter Monitored: OPACITY
Upper Permit Limit: 20 percent
Reference Test Method: EPA Method 9
Averaging Method: 6-MINUTE AVERAGE (METHOD 9)
Reporting Requirements: SEMI-ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
The initial report is due 1/30/2013.
Subsequent reports are due every 6 calendar month(s).
Condition 31: Compliance Certification
Effective between the dates of 10/10/2012 and 10/09/2017

Applicable Federal Requirement: 6 NYCRR 227-2.4 (c) (1) (i)

Item 31.1:
The Compliance Certification activity will be performed for:

Emission Unit: E-U001B
Process: P1B
Emission Source: ES01C

Regulated Contaminant(s):
CAS No: 0NY210-00-0 OXIDES OF NITROGEN

Item 31.2:
Compliance Certification shall include the following monitoring:

Monitoring Type: INTERMITTENT EMISSION TESTING
Monitoring Description:
This condition applies to natural gas only fired mid-size boilers and is applicable until June 30th 2014. The owner or operator shall submit a testing protocol to the Department for approval a minimum of 30 days prior to any stack testing.

The owner or operator will maintain records on-site for a minimum of five years.

Parameter Monitored: OXIDES OF NITROGEN
Upper Permit Limit: 0.10 pounds per million Btus
Reference Test Method: 40 CFR 60 Appendix A - method 7, 7E, or 19
Monitoring Frequency: ONCE DURING THE TERM OF THE PERMIT
Averaging Method: 1-HOUR AVERAGE
Reporting Requirements: SEMI-ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
The initial report is due 1/30/2013.
Subsequent reports are due every 6 calendar month(s).

Condition 35: Compliance Certification
Effective between the dates of 10/10/2012 and 10/09/2017

Applicable Federal Requirement: 6 NYCRR 227-2.4 (c) (1) (ii)

Item 35.1:
The Compliance Certification activity will be performed for:

Emission Unit: E-U001B
Process: P1B
Emission Source: ES01C

Regulated Contaminant(s):
CAS No: 0NY210-00-0 OXIDES OF NITROGEN
Item 35.2:
Compliance Certification shall include the following monitoring:

Monitoring Type: INTERMITTENT EMISSION TESTING
Monitoring Description:
This condition applies to natural gas only fired mid-size boilers. The owner or operator shall submit a testing protocol to the Department for approval a minimum of 30 days prior to any stack testing.

The owner or operator will maintain records on-site for a minimum of five years.

The compliance deadline, with the emission limitation listed in this condition, is July, 1 2014. Compliance with the monitoring, record keeping, or reporting requirements listed in this condition begins on July, 1 2014.

Parameter Monitored: OXIDES OF NITROGEN
Upper Permit Limit: 0.05 pounds per million Btus
Reference Test Method: 40 CFR 60 Appendix A - Method 7, 7E, or 19
Monitoring Frequency: ONCE DURING THE TERM OF THE PERMIT
Averaging Method: 1-HOUR AVERAGE
Reporting Requirements: SEMI-ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
The initial report is due 1/30/2013.
Subsequent reports are due every 6 calendar month(s).
STATE ONLY ENFORCEABLE CONDITIONS

**** Facility Level ****

NOTIFICATION OF GENERAL PERMITTEE OBLIGATIONS
This section contains terms and conditions which are not federally enforceable. Permittees may also have other obligations under regulations of general applicability.

Item A: Emergency Defense - 6 NYCRR 201-1.5

An emergency constitutes an affirmative defense to an action brought for noncompliance with emissions limitations or permit conditions for all facilities in New York State.

(a) The affirmative defense of emergency shall be demonstrated through properly signed, contemporaneous operating logs, or other relevant evidence that:

(1) An emergency occurred and that the facility owner and/or operator can identify the cause(s) of the emergency;
(2) The equipment at the permitted facility causing the emergency was at the time being properly operated;
(3) During the period of the emergency the facility owner and/or operator took all reasonable steps to minimize levels of emissions that exceeded the emission standards, or other requirements in the permit; and
(4) The facility owner and/or operator notified the Department within two working days after the event occurred. This notice must contain a description of the emergency, any steps taken to mitigate emissions, and corrective actions taken.

(b) In any enforcement proceeding, the facility owner and/or operator seeking to establish the occurrence of an emergency has the burden of proof.

(c) This provision is in addition to any emergency or upset provision contained in any applicable requirement.

Item B: General Provisions for State Enforceable Permit Terms and Condition - 6 NYCRR Part 201-5

Any person who owns and/or operates stationary sources shall operate and maintain all emission units and any required emission control devices in compliance with all applicable Parts of this Chapter and existing laws, and shall operate the facility in accordance with all criteria, emission limits, terms, conditions, and
standards in this permit. Failure of such person to properly operate and maintain the effectiveness of such emission units and emission control devices may be sufficient reason for the Department to revoke or deny a permit.

The owner or operator of the permitted facility must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility regulated by this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations or law.

**STATE ONLY APPLICABLE REQUIREMENTS**
The following conditions are state applicable requirements and are not subject to compliance certification requirements unless otherwise noted or required under 6 NYCRR Part 201.

**Condition 32: Contaminant List**
Effective between the dates of 10/10/2012 and 10/09/2017

Applicable State Requirement:ECL 19-0301

**Item 32.1:**
Emissions of the following contaminants are subject to contaminant specific requirements in this permit (emission limits, control requirements or compliance monitoring conditions).

CAS No: 0NY075-00-0  
Name: PARTICULATES

CAS No: 0NY210-00-0  
Name: OXIDES OF NITROGEN

CAS No: 0NY510-00-0  
Name: 40 CFR 63 - TOTAL METAL HAP

**Condition 33: Unavoidable noncompliance and violations**
Effective between the dates of 10/10/2012 and 10/09/2017

Applicable State Requirement:6 NYCRR 201-1.4

**Item 33.1:**
At the discretion of the commissioner a violation of any applicable emission standard for necessary scheduled equipment maintenance, start-up/shutdown conditions and malfunctions or upsets may be excused if such violations are unavoidable. The following actions and recordkeeping and reporting requirements must be adhered to in such circumstances.
(a) The facility owner and/or operator shall compile and maintain records of all equipment maintenance or start-up/shutdown activities when they can be expected to result in an exceedance of any applicable emission standard, and shall submit a report of such activities to the commissioner’s representative when requested to do so in writing or when so required by a condition of a permit issued for the corresponding air contamination source except where conditions elsewhere in this permit which contain more stringent reporting and notification provisions for an applicable requirement, in which case they supersede those stated here. Such reports shall describe why the violation was unavoidable and shall include the time, frequency and duration of the maintenance and/or start-up/shutdown activities and the identification of air contaminants, and the estimated emission rates. If a facility owner and/or operator is subject to continuous stack monitoring and quarterly reporting requirements, he need not submit reports for equipment maintenance or start-up/shutdown for the facility to the commissioner's representative.

(b) In the event that emissions of air contaminants in excess of any emission standard in 6 NYCRR Chapter III Subchapter A occur due to a malfunction, the facility owner and/or operator shall report such malfunction by telephone to the commissioner's representative as soon as possible during normal working hours, but in any event not later than two working days after becoming aware that the malfunction occurred. Within 30 days thereafter, when requested in writing by the commissioner's representative, the facility owner and/or operator shall submit a written report to the commissioner's representative describing the malfunction, the corrective action taken, identification of air contaminants, and an estimate of the emission rates. These reporting requirements are superseded by conditions elsewhere in this permit which contain reporting and notification provisions for applicable requirements more stringent than those above.

(c) The Department may also require the owner and/or operator to include in reports described under (a) and (b) above an estimate of the maximum ground level concentration of each air contaminant emitted and the effect of such emissions depending on the deviation of the malfunction and the air contaminants emitted.

(d) In the event of maintenance, start-up/shutdown or malfunction conditions which result in emissions exceeding any applicable emission standard, the facility owner and/or operator shall take appropriate action to prevent emissions which will result in contravention of any applicable ambient air quality standard. Reasonably available control technology, as determined by the commissioner, shall be applied during any maintenance, start-up/shutdown or malfunction condition subject to this paragraph.

(e) In order to have a violation of a federal regulation (such as a new source performance standard or national emissions standard for hazardous air pollutants) excused, the specific federal regulation must provide for an affirmative defense during start-up, shutdowns, malfunctions or upsets.
