2022 Zero Emission Vehicle Credits

As provided for by Section 177 of the federal Clean Air Act, New York State adopted California's zero emission vehicle (ZEV) standards. New York State incorporates California's ZEV standards by reference in 6 NYCRR Part 218, specifically Subpart 218-4.1 ZEV Percentages. The ZEV standards incorporated in Part 218 include provisions for the public disclosure of manufacturers' ZEV credits and annual production data.

Manufacturer Volume Status

The ZEV regulation requires large and intermediate volume manufacturers (LVM and IVM) to deliver and place in service within New York State a certain percentage of ZEVs (battery electric and fuel cell vehicles) and plug-in hybrids with near-zero tailpipe emissions. The table below lists vehicle manufacturers subject to the 2022 ZEV requirements.

2022 Manufacturer Volume Status	
Large Volume	Intermediate Volume
BMW	Jaguar Land Rover
Fiat Chrysler	Mazda
Ford	Mitsubishi
General Motors	Subaru Corporation
Honda	Tesla
Hyundai	Volvo

Manufacturer Requirement

A vehicle manufacturer's ZEV requirement is based on a percentage of all passenger cars (PC) and light-duty trucks (LDT) up to 8,500 pounds delivered for sale in New York State. The table below is the 2022 New York vehicle production of LVM and IVM.

Manufacturer Credit Balances

In complying with the ZEV regulation, LVMs and IVMs deliver and place vehicles in New York State which generate varying credits based on vehicle type. Other entities without a ZEV requirement may also generate credits. The table below lists the credit balances as of August 31, 2023, generated since the start of New York's ZEV program in 2007. ZEV credits are unitless.

Frequently Asked Questions

What do credit balances mean?

Positive credit balances indicate successful over-compliance with the ZEV regulation. Manufacturers may use these credit balances to provide flexibility in complying with ZEV requirements in future model years or transfer them to other manufacturers. Negative credit balances indicate noncompliance with the ZEV regulation and must be offset within a specified timeframe.

How many vehicles have been placed in service in New York as a result of the ZEV regulation?

As of October 1, 2023, approximately 180,000 ZEVs and plug-in hybrids are currently in service in New York State.¹
