LAND CLEARING DEBRIS LANDFILL

A Land Clearing Debris Landfill is a landfill that is three acres or less used for the disposal of only vegetative matter, soil and rock resulting from activities such as land clearing and grubbing, utility line maintenance or seasonal or storm-related cleanup such as trees, stumps, brush and leaves and including wood chips generated from these materials. Land clearing debris does not include yard waste which has been collected at the curbside. Further information and a listing of the land clearing debris landfills are available online at <https://www.dec.ny.gov/environmental-protection/waste-management/solid-waste-management-facilities/landfill-types>.

If your facility is authorized to process construction and demolition debris you need to submit a Construction & Demolition Debris Handling and Recovery Facility Annual Report. If your facility is authorized to operate as a land clearing debris landfill and to process construction and demolition debris you must submit both annual reports

Forms for all solid waste management facilities can be found at <https://www.dec.ny.gov/environmental-protection/waste-management/solid-waste-management-facilities/forms> and a brief description of each type of facility can be found at <https://www.dec.ny.gov/environmental-protection/waste-management/solid-waste-management-facilities>.

Annual Report

Submit the Annual Report no later than March 1, 2024

Reporting of the information indicated on this Active Land Clearing Debris Landfill Annual/Quarterly Report form is required pursuant to 6 NYCRR 360-1.4(c); 360-1.8(e)(1)(ii),(h)(8); 360-1.14(e)(2), (i)(1); 360-7.2(c). Failure to provide the required information requested is a violation of Environmental Conservation Law. Timely submission of a properly completed form to the Department's Regional Office that has jurisdiction over your facility and to the Department's Central Office is required to meet the Annual/Quarterly Report requirements of 6 NYCRR Part 360.

Where the Annual Report requirements have been modified, appropriate Sections (as necessary to reflect the modification) must be completed and submitted with a copy of the Department's written notification which allows the modification.

Entries on the report forms should be either typewritten or neatly printed in black ink. Attach additional sheets if space on the pages is insufficient or supplementary information is required or appropriate.

Solid Waste Volume To Weight Conversion Factors

MATERIAL	EQUIVALENT	
Land Clearing Debris	1 cubic yard	0.5 tons

SECTION 3 – SERVICE AREA OF MATERIAL RECEIVED

Identify the facility's service area by indicating the type of solid waste received, the Solid Waste Management facility (SWMF) from which it was received by your facility (or Direct Haul), the corresponding State/Country, the County/Province, and the NYS Planning Unit and the amount received. **Refer to the list of NYS Planning Units that can be found at the end of this report.** The total amount reported here should equal the total amount reported in Section 2 (Land Clearing Debris Disposed). **DO NOT REPORT IN CUBIC YARDS!**

Additional Service Area Guidance:

1) Direct hauled from the generator of the waste. In the case where the waste is hauled to your facility from the generator (i.e. hauled from residences, commercial establishments, etc.), "Direct Haul" is the appropriate response in Column 2 under "Service Area." Please report the tonnage by waste type and identify the state, county and planning unit where it was generated;

2) Sent to your land clearing debris landfill from another solid waste management facility. Waste may be sent to your land clearing debris landfill from another solid waste management facility. In this case, please report the tonnage by waste type from each sending solid waste management facility, as well as the sending facility's name, address, county, and the planning unit where the sending facility is located.
