# Categorization of New York State Trout Stream Reaches

MARCH 2026

Kathy Hochul, Governor | Amanda Lefton, Commissioner

## **A. Purpose**

This document supports the New York State Trout Stream Management Plan (TSMP) (NYSDEC 2020) by providing DEC Fisheries staff and anglers with a list of the management categories currently assigned to New York trout stream reaches.

## **B. Revision/Update Schedule**

Revision 6 (March 23, 2026)

Management categories assignments may change as new information (biological, angler use, and public access) becomes available. This document will be updated annually in mid-February. This revision contains 78 changes. See section G for details.

## **C. About Management Categories**

The TSMP established five independent categories of trout stream management. The categories make a sharp distinction between wild trout management (three categories) and stocked trout management (two categories). See the TSMP (NYSDEC 2020) for a discussion of each category and the objectives and strategies associated with those categories. These categories apply to inland trout streams. They do not apply to tidal stream reaches and tributary streams to the Great Lakes, Finger Lakes, and Lake Champlain from their mouths to the first impassible barriers.

## D. Management Category Criteria

The criteria for assigning management categories to stream reaches are listed in Table 1 for wild trout management categories and Table 2 for stocked trout management categories (NYSDEC 2020).

Table 1. Criteria for Wild Trout Management Categories			
	Wild	Wild-Quality	Wild-Premier
<b>Access</b>	Public access	Public access	Significant access – at least 3 cumulative miles of reach length in one or more of the following: <ul style="list-style-type: none"> <li>• Public fishing rights</li> <li>• Public land</li> <li>• Public fishing permitted by landowner</li> <li>• Adequate angler parking</li> </ul>
<b>Size</b>	Not applicable	Mean width >10 feet	Mean width >20 feet
<b>Stream Reach Quality (Trout Carrying Capacity)</b>	Meets C(T) <sup>1</sup> or higher water quality standard or data exists to support C(T) classification	<ul style="list-style-type: none"> <li>• wild trout biomass &gt;40 lbs/acre or</li> <li>• ≥ 300 yearling or older trout/mile</li> </ul>	<ul style="list-style-type: none"> <li>• wild trout biomass &gt;60 lbs/acre or ≥ 500 yearling or older trout/mile</li> <li>• abundance of wild trout ≥9 in</li> <li>• potential to catch memorable fish (12" ST, 15" RT or BT)<sup>2</sup></li> </ul>
<b>Angler Use</b>	Not applicable	Not applicable	Reach can physically and biologically accommodate moderate to high angler use (>150 hr/acre)

Table 2. Criteria for Stocked Trout Management Categories		
	Stocked	Stocked-Extended
<b>Access</b>	Access by one or more of the following: <ul style="list-style-type: none"> <li>• Public fishing rights easements</li> <li>• Public land</li> <li>• Public fishing permitted by landowner</li> </ul>	Significant access – at least 3 cumulative miles of reach length in one or more of the following: <ul style="list-style-type: none"> <li>• Public fishing rights</li> <li>• Public land</li> <li>• Public fishing permitted by landowner</li> <li>• Adequate angler parking</li> </ul>
<b>Size</b>	Mean width >10 feet	Mean width >20 feet
<b>Stream Reach Quality (Trout Carrying Capacity)</b>	<ul style="list-style-type: none"> <li>• Survival to end of May</li> <li>• Does not already support adequate fisheries for black bass or walleye, even though technically a trout stream</li> <li>• Must meet Bp<sup>3</sup> standard</li> </ul>	<ul style="list-style-type: none"> <li>• Reach conditions offer potential for spring-stocked trout to survive into summer</li> <li>• Temperatures generally suitable for regular stocking through mid-June or for two consecutive months</li> <li>• Must meet Bs<sup>4</sup> standard</li> </ul>
<b>Angler Use</b>	>75 hours/acre	>150 hours/acre

<sup>1</sup> The C(T) classification applies to waters that support trout and requires evidence of trout presence.

<sup>2</sup> ST=brook trout, RT= rainbow trout, and BT=brown trout

<sup>3</sup> Marginal put and take trout streams with relatively little potential for wild or holdover contribution (Engstrom-Heg 1990).

<sup>4</sup> Trout streams capable of supporting a spring fishery and some holdover trout, but with habitat deficiencies limiting wild trout (Engstrom-Heg 1990).

## E. Verification of Public Access

The extent of unverified access (informal or assumed access) to trout stream reaches on privately held lands was identified as a problem in the TSMP (NYSDEC 2020). In 2022, DEC Fisheries staff began a systematic statewide effort to verify public fishing access on portions of stocked trout streams traversing lands held in private ownership where access agreements were lacking. The goal of this project is to ensure that “trout raised with state funds will only be stocked into stream reaches where public access is available, and anglers can be directed to accessible locations on those reaches by DEC” (NYSDEC 2023).

In 2025, access verification was completed for the entire state. Project details are available in the Stocked Trout Stream Access Verification Plan – Years 2-4 (NYSDEC 2023). Modifications to reach categories and reach dimensions resulting from this effort are listed in Tables 4.1-4.9

### Road Access Stocking (RAS)

“Road Access Stocking” (RAS) policies were created as part of the Stocked Trout Stream Access Verification Plan – Years 2-4 (NYSDEC 2023). RAS policies are point stockings on a stream that allow for the stocking of a limited number of trout at both bridge crossings and areas where roadways are immediately adjacent to a stream reach (hereafter termed “roadside parcel”). The intent of this new stocking practice is to provide for short-term, put-and-take fisheries within short sections of pool habitat with access posted as “Fishing Permitted.” Instead of eliminating stockings in Stocked reaches with limited public access, RAS policies will provide the public some opportunities to fish by landowner permission on short, sections of private lands deemed to provide significant public access. RAS policies can only be established on pre-existing Stocked reaches. Rules for establishing a RAS can be found in the Stocked Trout Stream Access Verification Plan – Years 2-4 (NYSDEC 2023).

# F. Management Categories Assigned to Trout Stream Reaches

## What is in Tables 3.1 – 3.9

Table 3.1-3.9 contain trout stream reaches that have at least a portion that is publicly accessible and have been assigned one of the following categories: Stocked, Stocked-Extended, Wild-Quality and Wild-Premier. Reaches categorized as Wild with a catch-and-release regulation are also included. Each reach can have a mix of verified public access and private lands. Anglers should respect private property and any posting of private property.

## Interactive Trout Stream Fishing Map (DECinfo Locator)

Use the interactive [Trout Stream Fishing Map](#) on DECinfo Locator to view where trout stream reaches are in New York. The [Trout Stream Fishing Map User Guide](#) contains additional information on how to use this tool. All trout stream reaches in Tables 3.1-3.9 are shown on the map.

## Wild and Un-categorized trout stream reaches

Many trout streams are categorized either as Wild (publicly accessible) or un-categorized (trout streams not in Tables 3.1-3.9 that are on private land). Wild trout stream reaches are not listed in Tables 3.1-3.9 due to the number of Wild streams, many of which are unnamed headwater streams. If a trout stream reach is not listed, it is likely categorized Wild, uncategorized, or is not defined as an inland trout stream. The stream reach may also be listed in Section G: Table of Management Category Changes as the management category may have changed based on new information.

## DEC Regions

Tables 3.1-3.9 are organized by NYSDEC Region. The counties contained within DEC Regions are as follows:

**Region 1:** Nassau and Suffolk counties

**Region 2:** Brooklyn, Bronx, Manhattan, Queens and Staten Island

**Region 3:** Dutchess, Orange, Putnam, Rockland, Sullivan, Ulster and Westchester counties

**Region 4:** Albany, Columbia, Delaware, Greene, Montgomery, Otsego, Rensselaer, Schenectady and Schoharie counties

**Region 5:** Clinton, Essex, Franklin, Fulton, Hamilton, Saratoga, Warren and Washington counties

**Region 6:** Herkimer, Jefferson, Lewis, Oneida and St. Lawrence counties

**Region 7:** Broome, Cayuga, Chenango, Cortland, Madison, Onondaga, Oswego, Tioga and Tompkins counties

**Region 8:** Chemung, Genesee, Livingston, Monroe, Ontario, Orleans, Schuyler, Seneca, Steuben, Wayne and Yates counties

**Region 9:** Allegany, Chautauqua, Cattaraugus, Erie, Niagara and Wyoming countie

## Guide to Tables 3.1-3.9

**Reach:** A stream reach is a segment of stream that shares, at a basic level, a common set of physical and biological characteristics that influence its ability to support trout and trout angling opportunity for the public.

**Miles:** The length, in miles, of the trout stream reach.

**Total # of Trout:** The total number of trout is the total number of yearlings and 12+ inch trout planned to be stocked.

**RAS stockings:** (RAS) appended to a Stocked management category denotes a roadside access stocking as described in Section E.

**Catch and Release:** (CR) appended to a management category denotes that special catch and release regulations apply year-round.

Table 3.1 Management Categories Assigned to Region 1 Trout Stream Reaches

Stream	County	Reach Description	Management Category	Miles	Total # of Trout
<b>Region 1</b>					
Carlls River	Suffolk	From Argyle Lake upstream to Southards Pond	Stocked	0.8	580
Carlls River	Suffolk	From Southards Pond upstream to Belmont Lake	Stocked	1.7	390
Carmans River	Suffolk	From cement dam upstream to Yaphank Avenue	Stocked-Extended (CR)	2.3	1,620

Table 3.2 Management Categories Assigned to Region 2 Trout Stream Reaches

No stream reaches are managed for trout in DEC Region 2

Table 3.3 Management Categories Assigned to Region 3 Trout Stream Reaches

Stream	County	Reach Description	Management Category	Miles	Total # of Trout
<b>Region 3</b>					
Crum Elbow Creek	Dutchess	From the first E Market Street Bridge upstream to 0.3 miles upstream of second E Market St Bridge	Stocked	0.9	350
Crum Elbow Creek	Dutchess	From Greentree Drive South upstream to 500 yards upstream of Naylor Road	Stocked	6.2	1,190
Fishkill Creek	Dutchess	From Washington Avenue Bridge upstream 600 yards	Stocked	0.3	400
Fishkill Creek	Dutchess	Beakman Recreation Park	Stocked (RAS)	0.4	180
Fishkill Creek	Dutchess	From Phillips Road upstream 0.7 miles	Stocked (RAS)	0.7	180
Fishkill Creek	Dutchess	From 400 yards downstream of Clove Creek upstream to 0.33 miles upstream of Bloomer Brook	Stocked	4.1	2,640
Fishkill Creek	Dutchess	From 1.0 miles downstream of State Route 376 upstream to 700 yards upstream of Taconic State Parkway	Stocked	5.8	2,790
Roeliff Jansen Kill	Dutchess	From 300 yards upstream of Turkey Hill Road upstream to 300 yards upstream of Mt. Ross Road.	Stocked	2.1	890
Sprout Creek	Dutchess	From Stringham Road bridge upstream 0.5 miles	Stocked (RAS)	0.5	180
Sprout Creek	Dutchess	Freedom Park (Town of LaGrange)	Stocked (RAS)	0.8	180
Sprout Creek	Dutchess	From 500 yards downstream of Old Hopewell Road upstream to 0.8 miles upstream of Robinson Lane Park	Stocked	6.7	2,540
Swamp River	Dutchess	From Old Route 22 bridge upstream to Route 22 bridge	Stocked	1.8	600
Tenmile River	Dutchess	From downstream edge of Ketcham Park (Town of Dover) upstream to Mill Street Bridge	Stocked	0.5	370
Tenmile River	Dutchess	From 350 yards downstream of Dog Tail Corners Road bridge upstream to 1000 yards upstream of Dog Tail Corners Raod bridge	Stocked	0.8	710
Tenmile River	Dutchess	From railroad bridge 0.75 mi upstream of Butts Hollow Brook upstream to confluence with Wassaic Creek	Stocked	2.4	1,620

Stream	County	Reach Description	Management Category	Miles	Total # of Trout
<b>Region 3</b>					
Wappinger Creek	Dutchess	From Pleasant Valley Dam upstream to 1.2 miles upstream of Great Spring Creek	Stocked	1.8	1,800
Wappinger Creek	Dutchess	From Hurley Road Bridge upstream to 1/3 mile upstream of Hibernia Road Bridge	Stocked	1.9	1,800
Wappinger Creek	Dutchess	From 3/4 miles downstream of Jameson Hill Rd. Bridge in Clinton Corners upstream to Hunts Lake Creek in Stanfordville	Wild-Quality	3.9	---
Wappinger Creek	Dutchess	From 500 yards upstream of New Hackensack Road upstream to 250 yards upstream of the junction of Titus Road and Rochdale Road	Stocked-Extended	6.4	10,640
Webatuck Creek	Dutchess	From the confluence with Wassaic Creek upstream 0.8 miles	Stocked	0.8	390
Webatuck Creek	Dutchess	From 0.5 miles downstream of Reagan Road bridge upstream to confluence with Sawmill Brook	Stocked	6.6	1,500
Moodna Creek	Orange	From 1.0 mile upstream of the Rt 32 dam upstream to 580 yards upstream of Conrail Railroad Line	Stocked	3.9	2,590
Rutgers Creek	Orange	Mandys Rd	Stocked (RAS)	0.1	180
Rutgers Creek	Orange	Waterloo Rd	Stocked (RAS)	0.7	180
Shawangunk Kill	Orange	From 250 yards downstream of Shoddy Hollow Rd upstream to Carboy Rd	Stocked	0.8	360
Ramapo River	Orange, Rockland	From the downstream end of H. Pierson Mapes Flat Rock County Park upstream to Arden Valley Road	Stocked-Extended	11.3	8,080
East Branch Croton River	Putnam	From Diverting Reservoir upstream to East Branch Reservoir Dam	Stocked-Extended	2.3	1,620
Peekskill Hollow Brook	Putnam	Peekskill Hollow Road bridge	Stocked (RAS)	0.1	180
Peekskill Hollow Brook	Putnam	Brooks Falls Road bridge	Stocked (RAS)	0.5	180
West Branch Croton River	Putnam	From Kittredge Drive bridge upstream to Boyd Corners Reservoir Dam	Stocked	0.5	820
West Branch Croton River	Putnam	From Croton Falls Reservoir upstream to West Branch Reservoir Dam	Wild-Quality	2.3	---

Stream	County	Reach Description	Management Category	Miles	Total # of Trout
<b>Region 3</b>					
Cedar Pond Brook	Rockland	From the Pyngyp Road/Route 210 intersection upstream to the Cedar Flats Road/Route 210 intersection	Wild-Quality	0.8	---
Mahwah River	Rockland	From 175 yards downstream of Mayer Drive to the upstream boundary of Kakiat County Park	Stocked	3.3	640
Minisceongo Creek	Rockland	From 500 yards upstream of Rosman Road upstream to the confluence with South Branch Minisceongo Creek	Stocked	1.0	200
Minisceongo Creek	Rockland	From the confluence with South Branch Minisceongo Creek upstream to Call Hollow Road	Stocked	1.9	380
Pascack Brook	Rockland	From W. Washington Ave (County Road 30) upstream to Pascack Rd.	Stocked	0.5	360
Stony Brook	Rockland	From the second Seven Lakes Drive crossing upstream of Interstate 87 upstream to 0.5 miles upstream of confluence with Spring Brook	Stocked	1.6	460
Beaver Kill	Sullivan	From the downstream end of the Beaver Kill Campground upstream to 0.5 mile upstream of the Beaver Kill covered bridge at the Beaver Kill Campground	Stocked-Extended	1.7	2,080
Beaver Kill	Sullivan	From the Delaware/Sullivan County line downstream of Roscoe upstream to the Route 206 Bridge	Stocked-Extended	3.6	6,320
Callicoon Creek	Sullivan	From 600 yds upstream of State Route 97 bridge upstream to confluence with North and East branch Callicoon Creek	Stocked	1.2	440
East Branch Callicoon Creek	Sullivan	From 235 yds upstream of State Highway 17B to .6 miles downstream of Jones Brook	Stocked	1.1	440
East Branch Callicoon Creek	Sullivan	From Welsh Road upstream to Swiss Hill Road North bridge	Stocked	3.9	850
Halfway Brook	Sullivan	From Sullivan County DPW highway garage downstream 1.3 miles	Stocked	1.0	360
Little Beaver Kill	Sullivan	From the confluence with Willowemoc Creek upstream to 630 yards upstream of Benton Hollow Brook	Stocked	4.8	860

Stream	County	Reach Description	Management Category	Miles	Total # of Trout
<b>Region 5</b>					
East Branch Ausable River	Clinton	From mouth upstream to Route 73	Stocked	17.4	16,000
North Branch Great Chazy	Clinton	From confluence with Graves Brook upstream to Lake Roxanne Road in Ellenburg Depot	Stocked-Extended	4.5	2,600
North Branch Great Chazy	Clinton	From confluence with Great Chazy River upstream to confluence with Graves Brook	Stocked-Extended	7.5	3,500
North Branch Saranac River	Clinton	From confluence with Saranac River upstream to 0.5 miles upstream of confluence with Cold Brook	Stocked	4.5	3,990
Salmon River	Clinton	From 0.7 miles downstream of Pealeesville Road (near Davis Lake) upstream to 0.8 miles upstream of Westcott Road	Stocked	3.6	350
Saranac River	Clinton	From 0.25 miles downstream of High Falls Powerhouse on Soper Rd. upstream to 0.3 miles upstream of Pup Hill Rd. bridge in Moffitsville.	Stocked	1.0	1,900
Saranac River	Clinton	From confluence with Mead Brook upstream to the Millstone Monument located at the intersection of Sand Road and NYS Route 22B in Morrisonville	Stocked	1.2	1,230
Saranac River	Clinton	From marked boundary 100 yards upstream of its confluence with the North Branch Saranac River upstream 1.4 miles to Stord Brook	Stocked-Extended (CR)	1.4	160
Saranac River	Clinton	From the Millstone Monument located at the intersection of Sand Road and NYS Route 22B in Morrisonville upstream to Kent Falls Dam	Stocked (CR)	2.9	2,290
Saranac River	Clinton	From 1500 ft east of Pup Hill Road bridge crossing upstream to the marked boundary 100 yards upstream of its confluence with the North Branch Saranac River	Stocked-Extended	3.2	3,500
True Brook	Clinton	From confluence with Saranac River upstream to Smithkill Brook (0.8 mile west of Number 37 Rd)	Wild-Quality	4.8	---

Stream	County	Reach Description	Management Category	Miles	Total # of Trout
<b>Region 5</b>					
West Branch Ausable River	Clinton, Essex	From confluence with East Branch Ausable River upstream to the Rt 86 bridge at the Flume	Stocked-Extended	13.0	8,787
Boquet River	Essex	From 0.5 miles downstream of Interstate 87 upstream to County Route 8 bridge	Stocked	7.0	3,000
Boquet River	Essex	From 0.5 miles downstream of Lobdell Ln upstream to 0.5 miles downstream of Split Rock Falls	Stocked	7.9	4,710
Boreas River	Essex	From confluence with Durgin Brook upstream to 0.74 miles upstream of Blue Ridge Road	Stocked	1.0	600
Boreas River	Essex	From 0.5 miles downstream of Route 28N upstream to 0.5 miles upstream of Route 28N	Stocked	1.0	600
Boreas River	Essex	From 0.5 miles downstream of Northwoods Club Road upstream to 0.5 miles upstream of Northwoods Club Road	Stocked	1.1	780
East Branch Ausable River	Essex	From Hulls Falls Road upstream to Porter Brook	Stocked	2.7	1,800
La Chute	Essex	From La Chute Falls in Bicentennial Park upstream to the Dam near the intersection of Pearl Street and Lord Howe Street	Stocked	1.0	1,200
Saranac River	Essex	From confluence with Franklin Falls Pond upstream 2.0 miles	Stocked	2.0	1,370
Schroon River	Essex	From 0.3 miles downstream of Greenough Road upstream to Deadwater Pond	Stocked	5.2	3,070
South Meadow Brook	Essex	From confluence with West Branch Ausable River upstream to confluence with Klondike Brook	Stocked	1.4	540
West Branch Ausable River	Essex	From 0.5 miles downstream of Adirondack Loj Road Bridge upstream to 0.5 miles upstream of Adirondack Lodge Road Bridge	Stocked	1.0	770
West Branch Ausable River	Essex	From the Route 86 bridge at The Flume upstream to the Whiteface Ski Center bridge	Stocked-Extended (CR)	1.3	2,609
West Branch Ausable River	Essex	From the Whiteface Ski Center Bridge upstream to the DEC sign 2.2 miles downstream of Monument Falls	Stocked-Extended	2.4	4,178

Stream	County	Reach Description	Management Category	Miles	Total # of Trout
<b>Region 5</b>					
West Branch Ausable River	Essex	From confluence with Holcomb Pond Outlet upstream to 0.5 miles upstream of Route 73 Bridge	Stocked	4.3	2,940
West Branch Ausable River	Essex	From DEC sign 2.2 miles downstream of Monument Falls upstream to confluence with Holcomb Pond Outlet	Stocked-Extended (CR)	5.4	3,662
Saranac River	Essex, Franklin	From Pine Street Bridge upstream to Lake Flower Dam	Stocked	0.6	730
Twobridge Brook	Essex, Franklin	From 500 feet upstream of Main Street in Bloomingdale upstream to Route 86	Stocked	9.8	1,040
Hudson River	Essex, Hamilton	From confluence with Thirteenth Brook upstream to confluence with Boreas River	Stocked	3.9	5,300
Hudson River	Essex, Hamilton	From confluence with Boreas River upstream to confluence with Indian River	Stocked	8.9	6,240
Indian River	Essex, Hamilton	From confluence with Cranberry Pond outlet upstream to Lake Abanakee Dam	Stocked	1.7	2,740
Chateaugay River	Franklin	From the Chasm Dam impoundment upstream to High Falls Dam	Stocked-Extended	2.6	1,700
Chateaugay River	Franklin	From end of posted PFR 1 mile from US/Canada border upstream to 1.0 miles upstream of the Marble River confluence	Stocked-Extended	3.2	2,800
Chateaugay River	Franklin	From the power line crossing near the intersection of Hartnett and Healy Roads upstream to the Forge Dam at Bunker Hill Road	Stocked	5.3	2,510
Deer River	Franklin	From 0.5 miles downstream of Route 5 (Moir-St Regis Falls Road) crossing in Dickinson Center upstream to 0.5 miles upstream of Reynoldston Road crossing	Stocked	9.4	2,720
Little Salmon River	Franklin	From end of PFR (0.4 miles upstream of Route 11 in Brushton) upstream to end of PFR 1,000 feet upstream of Gallop Road	Stocked	3.8	1,970
North Branch Saranac River	Franklin	From confluence with West Brook upstream to 0.5 miles upstream of Goldsmith Road crossing at Slab Bridge	Stocked	3.0	1,550

Stream	County	Reach Description	Management Category	Miles	Total # of Trout

Salmon River	Franklin	From 200 yds. downstream of Cargin Road Bridge upstream to Lamica Lake Dam	Stocked-Extended	2.0	8,040
Salmon River	Franklin	From Flatrock Road Bridge upstream to 200 yards downstream of the Cargin Road Bridge	Stocked-Extended (CR)	2.2	2,120
Salmon River	Franklin	From Lamica Lake upstream to Ballards Mill Dam	Stocked	2.9	2,270
Salmon River	Franklin	From Rt. 37 Bridge in Westville Center upstream to Flatrock Road Bridge	Stocked-Extended	5.0	6,820
Salmon River	Franklin	From bottom end of PFR (4,000 feet upstream of Ballard Mills Dam) upstream to dam at Chasm Falls	Stocked	7.0	5,180
St. Regis River	Franklin	From Dam in St. Regis Falls downstream 2 miles	Stocked	1.9	1,920
Trout River	Franklin	From 0.5 miles downstream of Houndsville road crossing upstream to dirt road crossing (0.85 miles above Houndsville Road)	Stocked	1.4	570
Cayadutta Creek	Fulton	From West Main Street upstream to Briggs Street	Stocked	1.0	390
Cayadutta Creek	Fulton	From Harrison Street upstream to North Street	Stocked	2.6	780
East Canada Creek	Fulton	From the confluence with Spruce Creek upstream to the confluence of Trammel Creek	Stocked	10.0	4,180
Middle Sprite Creek	Fulton	From confluence with East Canada Creek upstream to 0.8 miles upstream of Lottville Road crossing.	Stocked	1.0	320
Cedar River	Hamilton	From 0.65 miles upstream of the NY Route 28 bridge upstream 1.5 miles.	Stocked	1.6	1,010
Jessup River	Hamilton	From 0.5 miles downstream of State Route 30 upstream to 0.5 miles upstream of State Route 30	Stocked	1.0	410
Jessup River	Hamilton	From 0.5 miles downstream of Jessup River Road crossing upstream to confluence with Mossy Vly Brook	Stocked	2.2	1,330
Mill Creek	Hamilton	From the confluence with Sacandaga River upstream to 1.0 miles upstream of Dorr Road crossing.	Stocked	2.8	580

Stream	County	Reach Description	Management Category	Miles	Total # of Trout
<b>Region 5</b>					
Raquette River	Hamilton	From 440 yards downstream of confluence with Pine Brook upstream to the Forked Lake Dam near Forked Lake Campsite Road	Stocked	1.8	2,140
Sacandaga River	Hamilton	From 700 yards upstream of confluence with East Branch Sacandaga River upstream to 350 yards downstream of Auger Falls	Stocked	1.0	790
Sacandaga River	Hamilton	From confluence with West Branch Sacandaga River upstream to Lake Algonquin Dam	Stocked	2.5	2,410
Sacandaga River	Hamilton	From picnic area near Austin Falls upstream to Christine Falls Dam	Stocked	2.6	1,280
South Branch West Canada Creek	Hamilton	From The Floe upstream to confluence with Roaring Brook	Stocked	1.6	1,130
South Branch West Canada Creek	Hamilton	From 0.5 miles downstream of the Faye Road bridge upstream to 0.25 miles upstream of Mountain Home Road	Stocked	2.0	1,630
West Branch Sacandaga River	Hamilton	From 0.5 miles upstream of Blackbridge Road to 0.5 miles upstream of the confluence with Jimmy Creek	Stocked	1.3	1,220
Geyser Brook	Saratoga	From 440 yards upstream of confluence with Kayaderosseras Creek upstream to the dam in Saratoga Spa State Park	Stocked	2.4	520
Glowegee Creek	Saratoga	From Lewis Road Bridge upstream to 0.75 miles upstream of Paisley Road Bridge	Stocked	2.2	740
Kayaderosseras Creek	Saratoga	From Galway Road upstream to 0.5 miles upstream of crossing at intersection of N. Creek Rd. and Squashville Rd.	Stocked-Extended	15.0	8,320
Snook Kill	Saratoga	From Wilton-Gansevoort Road upstream to Northern Pines Road in Wilton	Stocked	9.2	1,760
Glen Brook	Warren	From 0.5 miles upstream of State Route 28 upstream one mile	Stocked	1.0	430
Hudson River	Warren	From the confluence of Raymond Brook upstream to the confluence with Thirteenth Brook	Stocked-Extended	3.3	6,200
Mill Creek	Warren	From 0.25 miles downstream of Harrington Road upstream to Route 28	Stocked	2.5	1,265

Stream	County	Reach Description	Management Category	Miles	Total # of Trout
<b>Region 5</b>					
Mill Creek	Warren	From one mile downstream of Hudson Street upstream to Cleveland Road	Stocked	3.3	430
North Creek	Warren	From 250 yards downstream of Claude Straight Road downstream to Route 28	Stocked	2.5	825
Northwest Bay Brook	Warren	From Route 9N Bridge closest to Padanarum Road upstream to the bridge on Padanarum Road at Wardsboro Road intersection	Stocked	1.3	440
Schroon River	Warren	From Milton Street Bridge upstream to the upstream end of Veterans Park	Stocked	0.8	1,320
Schroon River	Warren	From Bolton Landing-Riverbank Road upstream to Starbuckville dam	Stocked-Extended	6.9	11,080
Batten Kill	Washington	From County Route 61 Bridge in Shushan upstream to County Route 64 Bridge	Stocked-Extended	1.2	2,360
Batten Kill	Washington	From County Route 64 Bridge upstream to covered bridge in Eagleville	Wild-Quality	2.5	---
Batten Kill	Washington	From covered bridge at Eagleville upstream to Vermont state line	Wild-Quality (CR)	4.3	---
Batten Kill	Washington	From confluence with Whittaker Brook upstream to Rexleigh Bridge	Stocked-Extended	5.1	16,970
Camden Creek	Washington	From the confluence with the Battenkill upstream to approximately 1,600 feet to the upstream end of PFR	Wild-Quality	0.3	---
Indian River	Washington	From the County Route 22 crossing just North of Andrews Lane upstream to 0.5 miles upstream of County Route 29	Stocked	3.2	380
Mettawee River	Washington	From Lower Turnpike Bridge in North Granville upstream to Vermont State Line	Stocked-Extended	9.8	9,400

Table 3.6 Management Categories Assigned to Region 6 Trout Stream Reaches

Stream	County	Reach Description	Management Category	Miles	Total # of Trout
<b>Region 6</b>					
Otsquago Creek	Herkimer	From 0.8 miles downstream of Prim Rose Lane upstream to Route 80 crossing in Vanhornesville near Jordanville Road	Stocked	3.3	520
Spruce Creek	Herkimer	From confluence with East Canada Creek upstream to Hopson Road	Stocked	0.8	460
Spruce Creek	Herkimer	From 100 yards downstream of Kingsley Road upstream to 200 yards upstream of State Route 29 West	Stocked	1.8	360
Sunday Creek	Herkimer	From confluence with Beaver River upstream to confluence with Lizard Spring Brook	Stocked	2.8	740
Unadilla River	Herkimer	From the Norfolk Southern and Western Railroad Crossing upstream to the upstream end of the Winfield Memorial Park	Stocked	0.9	270
West Canada Creek	Herkimer	From Shells Bush Road upstream to 0.5 miles upstream of Kast Bridge	Stocked	2.3	4,320
West Canada Creek	Herkimer	From 1.0 mile downstream of Route 8 bridge near Haskell Road upstream to 1.75 miles upstream of Route 8 bridge near Haskell Road	Stocked	2.8	2,660
West Canada Creek	Herkimer, Oneida	From the first bridge (Comstock Bridge) downstream of the mouth of Cincinnati Creek upstream to Trenton Falls Dam	Stocked-Extended (CR)	4.0	2,200
West Canada Creek	Herkimer, Oneida	From Bridge Street in Middleville to the first bridge (Comstock Bridge) downstream of the mouth of Cincinnati Creek	Stocked-Extended	15.7	24,600
Black Creek	Jefferson	From the downstream end of the Town of Philedalphia municipal park upstream to Route 3	Stocked	16.9	4,670
Black River	Jefferson	From Factory Square Park upstream to the Route 3 accessible platform	Stocked	1.9	2,350
Felts Mills Creek	Jefferson	From County Route 47 downstream 1.0 mile	Stocked	1.0	340

Stream	County	Reach Description	Management Category	Miles	Total # of Trout
<b>Region 6</b>					
Felts Mills Creek	Jefferson	From 0.2 miles above Burnup Road upstream to 0.2 miles above Fishermans Foot Path at County Rte 144 Fisherman Parking Area	Stocked	1.4	380
Jacobs Creek	Jefferson	From 1.0 mile downstream of Jacobs Road upstream to Cook Road	Stocked	2.8	460
North Branch Sandy Creek	Jefferson	From confluence with Sandy Creek upstream to 0.6 miles above Co Rte 155	Stocked	1.0	350
Sandy Creek	Jefferson	From 0.3 miles above of the dam in Adams upstream to Route 69	Stocked	1.6	620
Sandy Creek	Jefferson	From 1.3 miles downstream of Co Rte 155 upstream to 0.6 miles upstream of Co Rte 155	Stocked	1.9	740
South Sandy Creek	Jefferson	County Route 95	Stocked (RAS)	0.3	120
South Sandy Creek	Jefferson	From 1.0 miles downstream of County Route 96 to 1.5 miles upstream of County Route 95 at State Land boundary	Stocked	2.5	390
Townsend Creek	Jefferson	From confluence with Felts Mills Creek upstream to 200 yards downstream of Rutland Hollow Road	Stocked	2.3	350
West Branch Black Creek	Jefferson	From 1 mile downstream of Route 3A upstream to State Route 3	Stocked	3.1	780
Alder Creek	Lewis	From confluence with East Branch Fish Creek upstream to 1.0 miles upstream of Sweeney Road	Stocked	4.1	1,480
Crystal Creek	Lewis	From confluence with the Black River upstream to Crystal Pond Dam	Wild-Quality	2.6	---
Crystal Creek	Lewis	From Crystal Pond upstream to Erie Canal Road	Wild-Quality	7.6	---
East Branch Fish Creek	Lewis	From Rome Reservoir Dam downstream 1.0 mile	Stocked	0.7	490
East Branch Fish Creek	Lewis	From the confluence with Rome Reservoir upstream to 1.0 mile upstream of the Osceola Road Fisherman's Parking Area	Stocked	1.3	1,060
East Branch Fish Creek	Lewis	From 1.0 mile downstream of Kotary Road upstream to 1.0 mile upstream of Kotary Road	Stocked	2.0	1,150

Stream	County	Reach Description	Management Category	Miles	Total # of Trout
<b>Region 6</b>					
Fish Creek	Lewis	From the confluence with Black River upstream to 1.5 miles upstream of North South Road	Wild-Quality	6.3	---

## G. Reach Change History Tables

Tables 4.1 through 4.9 document changes to managed trout stream reaches since the adoption of the TSMP in 2020 through March 2026. Types of changes range from adjustments to reach boundaries based on verification of public access to changes in management category based on trout abundance or angler use.

### Guide to Tables 4.1-4.9

**Formerly stocked:** Represents waters that were stocked with trout in 2020.

**UnCat:** This abbreviation is for an uncategorized stream reach.

**RAS:** Road Access Stocking – One or more specific stocking locations retained within a reach lacking sufficient public access for continued management as a *Stocked* reach. See Table 3 for descriptions.

**Management priority given to wild trout:** Reach does not meet wild trout abundance criterion for the *Wild-Quality* category. However, based on ecological and recreational potential of the reach, DEC judges the benefit of wild trout management to outweigh the benefit of stocking.

**Fails to meet minimum stocking criteria:** Trout stream reaches will not be stocked if habitat does not meet minimum criteria or if the calculated stocking number is less than 300 yearling-equivalents (where one 12" trout = 4 yearlings), TSMP (NYSDEC 2020) page 12. Calculated stocking is based on accessible acreage and angler use.

**Insufficient public access:** Reach lacks enough public access to stock at least 300 yearling-equivalents.

**Revised according to public access:** The length of the reach has been either increased, decreased, or converted to RAS stockings based on the gain or loss of verified public access. The reach description has been revised according to the new boundaries.

**Trout abundance criterion met:** Biological survey data confirm that the wild trout population in the reach satisfies the criteria for the *Wild-Quality* or *Wild-Premier* management categories (Table 1).

**Insufficient angler use:** Estimated angler use from a creel survey or standard angler count falls short of the minimum required for either the *Stocked* or *Stocked-Extended* management categories (Table 1).

**Match adjacent reach category:** Justification is lacking to manage the reach in a different category than the adjoining reaches. Category change to simplify angling regulations.

**Not an inland trout stream:** The reach falls outside the scope of New York State Trout Stream Management Plan (NYSDEC 2020).

**Reach description change:** The reach description was changed to correct an error or to improve the clarity of the description.

**Category criteria unmet:** The reach does not meet the minimum criteria to be managed under the previously assigned category.

Table 4.1 Region 1 Reach Change History

Stream	County	Reach Description	Category Change		Change justification	Change Date
			From	To		
<b>Region 1</b>						
Carlls River	Suffolk	P949 Upstream 0.5 Mi	Formerly stocked	Wild	Fails to meet minimum stocking criteria	11/23/2020
