

# WQIP BUDGET

## Directions

- All WQIP applicants must complete Part I and the applicable section of Part II of this budget form to be eligible for WQIP funding.
- Complete all parts of this budget using only the requested grant amount and match for this WQIP grant. Do not include funds being requested through other grants in the CFA, or the total project cost if different from the WQIP request.

## Part I Directions:

- View the maximum award amount and required match percentage for each project type and subtype in the WQIP Program Overview
- Projects that do not show match and an eligible match source will be found ineligible
- Calculating match:
  - Match for WQIP is a percentage of the award amount, not the total project cost.
  - Only eligible WQIP costs/activities may be used for match
  - Applications that do not show sufficient match will have their potential award amounts decreased accordingly.
  - Match consists of cash contributions and in-kind services for the project and must come from a local source.
  - State grants/funding are not acceptable sources of match, except for loans that will be repaid (e.g. State Revolving Fund loans). Federal grants/funding can be used as match except for projects located within the Long Island Sound watershed.

*Match Formula: Requested Award Amount x Required Match Percentage = Required Match Amount*

### Match Calculation Example:

Project type: Salt Storage and Road Salt Reduction

Required match percentage: 25% of award amount

Requested award amount: \$500,000

$\$500,000 \times .25 = \$125,000$

Required match amount: \$125,000

## Part II Directions:

- Complete the budget detail section for the WQIP project type that you selected in CFA question 15340.
- In this section, the amounts should include both the requested grant amount and match
- Each project type has different eligible and ineligible costs, so be sure to complete the correct section.
- Projects with ineligible costs/activities may be found ineligible for funding or receive a reduced score. View the WQIP Program Overview for full details on eligible and ineligible costs for each project type and subtype.

WQIP BUDGET  
Part I: Budget Summary

Project Name:  
Organization Name:  
Project Type:

**BUDGET SUMMARY**

Funding Amount Requested through WQIP	Match %	Match Funds	TOTAL

Match source: \_\_\_\_\_

**JUMP TO PART II: PROJECT TYPE SPECIFIC DETAIL**

- Wastewater Treatment Improvement or Dam Safety Repair/Rehabilitation and Dam Removal
- Non-Agricultural Nonpoint Source Abatement and Control or Vacuum Trucks in MS4 Areas
- Land Acquisition for Source Water Protection
- Salt Storage and Road Salt Reduction
- Aquatic Connectivity Restoration, Marine District Habitat Restoration, or Fish and Wildlife Habitat Restoration and Enhancement
