

# MINIMUM DOCUMENTATION REQUIREMENTS FOR CONTROL OF EXTERNAL SOURCES OF NUTRIENTS

Department of  
Environmental  
Conservation

This documentation is required for applications to implement in-waterbody control projects in fresh water waterbodies. The intent of this documentation is to demonstrate that landside nonpoint sources of nutrients are being controlled. Please use this template to describe projects that have been implemented in the last five years.

- I. Project name
- II. Project locations
- III. Brief description of projects, including best management practices, size of project or treated area, proximity to waterbody of concern
- IV. Reference plan (e.g. TMDL)
- V. Funding source
- VI. Pollutant addressed (e.g. phosphorus)
- VII. Estimated amount of pollutant reduction achieved by projects
- VIII. Date completed (must be within last five years)
