Dear Mr. Hogan:

On May 30, 2025, Constitution Pipeline Company, LLC (Constitution) filed an application (Application) with the New York State Department of Environmental Conservation (NYSDEC) for a Water Quality Certification (WQC) under Section 401 of the federal Clean Water Act for Constitution's pipeline project in the above-referenced counties (the Project). The Application also was submitted for purposes of review and coordination with NYSDEC under Article 15, Title 5 (Protection of Waters) and Article 24, Title 23 (Freshwater Wetlands) of the New York State Environmental Conservation Law (NYECL).<sup>1</sup>

Please be advised that Constitution hereby withdraws the Application effective as of the date hereof. Constitution reserves all rights previously asserted with respect to the Application and NYSDEC's notices in connection therewith.

If you have any questions regarding this matter, please contact the undersigned at 832-814-9047 or via email at [lynda.schubring@williams.com](mailto:lynda.schubring@williams.com).

Sincerely,  
Constitution Pipeline Company, LLC

<sup>1</sup> Constitution filed its application subject to a full reservation of rights, specifically including the Federal Energy Regulatory Commission's (FERC) prior determination that the NYSDEC had waived its authority to issue or deny the WQC. Constitution's filing was also undertaken with the qualifications that (i) it did not waive any of its federal rights; (ii) any state approvals were to be consistent with FERC's review and approval of the Project; and (iii) any state approvals would not prohibit or unreasonably delay the construction and operation of the facilities once approved by FERC. The filing also was made subject to an express reservation of rights that the federal Natural Gas Act preempts New York permitting and procedural requirements under the NYECL and/or its implementing regulations at Title 6 of the New York Codes, Rules and Regulations.
