DATE

6 NYCRR Part 360.12(c) addresses pre-determined materials which, when used in the manner noted in that subdivision, are not considered solid wastes (for the purposes of Part 360). In situations where a proposed reuse is not specifically identified in that subdivision, material generators and potential users may petition the Department for a case-specific beneficial use determination (BUD) under Part 360.12(d). This form has been developed to assist applicants in obtaining a case-specific BUD for the use of excess food scraps and food processing wastes as animal feed. **This application IS NOT needed for the use of bread, bakery waste, spent brewery grains, and farmers' market fruits/vegetables used for animal feed under pre-determined beneficial uses in Part 360.12(c)(2)(vi) and (vii).**

Note: This form is intended to address the requirements of 6 NYCRR 360.12(d) and does not cover all animal feed regulations and requirements that are administered by other local, state, or federal regulating agencies.

Petitioner Information

Full Name: _____
Last *First* *M.I.*

Affiliation: _____ _____
Company *Title*

Primary Address: _____ _____
Street Address *City/Town*

_____ _____
County *Zip Code*

Primary Phone: ( ) _____ **Primary Email:** _____

Food Scraps or Processing Waste Information

Duration of Use: _____ (up to 5 years)

Food Waste Material: _____ _____
Type of Food Material (e.g., wasted produce, whey, etc.) *Estimated Quantity (i.e. tons/year)*

Source of Generation: _____ _____
Generator Name *Facility Type (e.g., Food Processor, etc.)*

_____
Generator Location(s) (Address, Town, County)

Description of Waste Material:

Description of Waste Material Collection:

Describe how the food scraps/processing wastes are collected and stored at the site of generation.

Contamination Control:

Describe the training and procedures that are used to ensure that no contaminants (plastics, etc.) are present in the final feed material. Include a list of all chemicals added during manufacturing processes, if applicable.

Depackaging Details:

If depackaging will occur, list depackaging location and describe process.

Nutritional Information:

Provide justification that the feed material has nutritional value for the animal it will be fed to. (Note: Not required if material has already been approved under another BUD.) Attach documents and/or analyses as necessary.

Processing Information:

Describe any processing (drying, etc.) of the food scraps/processing wastes that will occur prior to use as feed, including the location of the processing facility.

Feed Destination Information

Farm information:

Farm Name	*Address*	*Type and Quantity of Animals Fed*

Hauling/ unloading:

Describe how food waste material will be delivered to the farm(s), the name of the hauler, and how material will be unloaded for storage. Include best management practices implemented at the farm to contain and properly manage the food material.

Storage:

Describe the storage structure at the farm to contain the feed and how it will be used in a timely manner to avoid spoilage.

Odors/vectors:

Describe how the farm will avoid odor and vector issues.

Farm information:

Farm Name | *Address* | *Type and Quantity of Animals Fed*

Hauling/ unloading:

Describe how food waste material will be delivered to the farm(s), the name of the hauler, and how material will be unloaded for storage. Include best management practices implemented at the farm to contain and properly manage the food material.

Storage:

Describe the storage structure at the farm to contain the feed and how it will be used in a timely manner to avoid spoilage.

Odors/vectors:

Describe how the farm will avoid odor and vector issues.

Farm information:

Farm Name | *Address* | *Type and Quantity of Animals Fed*

Hauling/ unloading:

Describe how food waste material will be delivered to the farm(s), the name of the hauler, and how material will be unloaded for storage. Include best management practices implemented at the farm to contain and properly manage the food material.

Storage:

Describe the storage structure at the farm to contain the feed and how it will be used in a timely manner to avoid spoilage.

Odors/vectors:

Describe how the farm will avoid odor and vector issues.

****Attach additional sheets, as necessary, for additional farms and any applicable analytical data.**

NOTICE: Pursuant to ECL Section 3-0301(2)(Q): False statements made on this application are punishable pursuant to Section 210.45 of the New York State Penal Code.

Before you submit this petition, please verify:

- ☐ All fields of the petition are complete (indicate N/A if appropriate).
- ☐ You have signed and dated above.
- ☐ You have included attachments or additional sheets, if needed.

Send this completed form and any supporting attachments to the **Materials Management Supervisor** in your DEC Region (for help, see http://www.dec.ny.gov/about/558.html), with a copy to:

Kathleen A. Prather, P.E.
Bureau of Solid Waste Management
Division of Materials Management
NYSDEC
625 Broadway, 9th Floor
Albany, NY 12233-7260

Please contact Kathleen Prather at (518) 402-8678 or benuse@dec.ny.gov if you have any questions about petitioning for a case-specific BUD.
