2020 Waste Quantity based on annual reports to DEC entered into SWIMS (as of December 6, 2022)

"Existing/Proposed Annual Permit Limit" based on limits set in current permits, or pending applications before DEC

"Existing & Entitled Capacity Under Permit" is the total capacity for which a facility has undergone environmental review and permitting; use of this capacity may require construction of additional cells

"Proposed Capacity Not Under Permit" is capacity which has been proposed to DEC, but for which approvals have not been completed.

\*\*\* Tonnage limit is based on steaming rate per Air Permit Condition.

Some facilities have service area restrictions.
